

ORDINANCE NO. 041723C

EJC

AN ORDINANCE OF THE COMMON COUNCIL OF THE CITY OF FISHERS, HAMILTON COUNTY, INDIANA, AMENDING THE OFFICIAL ZONING MAP TO REZONE 109.15 +/- ACRES FROM R2 TO PUD-R FOR A PROJECT KNOWN AS FLAT FORK PUD DISTRICT.

WHEREAS, this is an ordinance to amend the Official Zoning Map incorporated into the Unified Development Ordinance, (“UDO”), for the City of Fishers (the “City”), previously enacted pursuant to Ind. Code § 36-7-4 *et seq.* as amended.

WHEREAS, the Advisory Plan Commission for the City of Fishers (“Plan Commission”) has conducted a public hearing on Docket No. RZ-23-3 as required by law in regard to the Rezone; and

WHEREAS, the Plan Commission at its October 4, 2023 meeting sent a favorable recommendation to the Common Council by a vote of six (6) in favor and zero (0) opposed.

NOW, THEREFORE BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FISHERS, HAMILTON COUNTY, INDIANA, MEETING IN REGULAR SESSION AS FOLLOWS:

SECTION 1. The City’s Official Zoning Map is hereby amended to designate the Real Estate, as described and shown in Exhibit A, to PUD-R.

SECTION 2. This Ordinance shall be in full force and effect from and upon its adoption and in accordance with Indiana law.

SECTION 3. The specific zoning standards, concept plan, and illustrative architectural exhibit shall be approved as shown in Exhibit B (“Petitioner’s Packet”), attached.

SO BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FISHERS, HAMILTON COUNTY, INDIANA this 9th day of October, 2023.

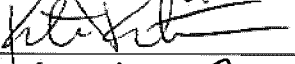

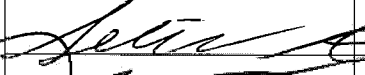

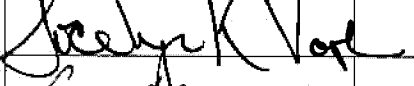

**COMMON COUNCIL OF THE CITY OF FISHERS,
HAMILTON COUNTY, INDIANA**

Exhibit A – Real Estate Description and Depiction

GEORGIA ROAD SITE, REZONE DESCRIPTION

A part of the Southwest Quarter of Section 7, Township 17 North, Range 6 East, in Fall Creek Township, Hamilton County, Indiana, more particularly described as follows:

Beginning at a point South 89 degrees 31 minutes 27 seconds West 375.80 feet of the Southeast corner of said Southwest Quarter Section to the centerline of an Electric Line Easement as recorded in Deed Record 183, pages 45-46, in the Office of the Recorder of Hamilton County, Indiana, being the point of beginning of this description; thence along the centerline of said Electric Line Easement by the next three (3) courses: 1) North 00 degrees 11 minutes 03 seconds West 824.19 feet; 2) North 00 degrees 09 minutes 08 seconds West 815.70 feet; 3) North 00 degrees 08 minutes 50 seconds West 666.84 feet; thence South 89 degrees 31 minutes 27 seconds West parallel to the South line of said Quarter Section a distance of 948.68 feet to the West line of the East Half of said Quarter Section; thence South 00 degrees 16 minutes 36 seconds East to the South line of said Quarter Section a distance of 2,307.09 feet; thence North 89 degrees 31 minutes 27 seconds East along the South line of said Quarter Section a distance of 944.06 feet to the point of beginning, containing 50.105 acres, more or less.

CYNTHEANNE ROAD SITE, REZONE DESCRIPTION (WITH OVERLAP)

Part of the Southeast Quarter of Section 7, Township 17 North, Range 6 East of the Second Principal Meridian, Hamilton County, Indiana, more particularly described as follows:

BEGINNING at the northeast corner of said Southeast Quarter; thence South 00 degrees 33 minutes 20 seconds East 100.00 feet along the east line of said Southeast Quarter (the bearings in this description are based on a survey prepared by Curtis C. Huff, recorded as Instrument Number 200500063272 in the Office of the Recorder of Hamilton County, Indiana) to the northeast corner of Heritage Minor Subdivision, per plat thereof, recorded as Instrument Number 9609624712 in the Office of said Recorder, the following three (3) courses are along the north, west and south lines of said plat; 1)thence South 89 degrees 17 minutes 46 seconds West 300.00 feet; 2)thence South 00 degrees 33 minutes 20 seconds East 200.00 feet; 3)thence North 89 degrees 17 minutes 46 seconds East 300.00 feet to the east line of said Southeast Quarter, the following two (2) courses are along the east and south lines thereof; 1)thence South 00 degrees 33 minutes 20 seconds East 2,357.19 feet to the southeast corner of said Southeast Quarter; 2)thence South 89 degrees 33 minutes 28 seconds West 994.88 feet to the southwest corner of Overlap Tract No. 1 as described on said survey; thence North 00 degrees 24 minutes 15 seconds West 2,652.67 feet along the west line of said Overlap Tract No. 1 and the east lines of Tracts "B", "C" and "D" as shown on said survey to the north line of said Southeast Quarter; thence North 89 degrees 17 minutes 46 seconds East 987.87 feet along said north line to the POINT OF BEGINNING. Containing 59.045 acres, more or less.

ORDINANCE NO. 041723C

-  Real Estate

ORDINANCE NO. 041723C

A. Declaration, Purpose and Intent, Applicability, and Allowed Uses

1. Declaration

- a. Ordinance No. 041723C (this "Ordinance")
- b. Adopted: October 9, 2023

2. Purpose and Intent

The Unified Development Ordinance (the "UDO") of the City of Fishers, Indiana, Ordinance No. 062121B, as amended, and the Official Zoning Map of the City of Fishers, Indiana, as amended, which accompanies and is a part of the Zoning Code of the City of Fishers, Indiana, are hereby amended as follows:

The zoning classification of the real estate legally described in **Exhibit B.1**, attached hereto and incorporated herein (the "Real Estate"), is hereby designated as Planned Unit Development – Residential District (PUD-R) and shall hereafter be known as the "Flat Fork PUD".

Development of the Real Estate shall be governed entirely by the provisions of this Ordinance and those provisions of the UDO specifically referenced in this Ordinance. All provisions of the UDO that conflict with the provisions of this Ordinance are hereby rescinded as applied to the Real Estate and shall be superseded by the terms of this Ordinance.

3. Applicability

The standards of the UDO applicable to the *R5 Residential District* shall apply to the development, as shown on the Concept Plan, except as modified, revised, or expressly made inapplicable by this Ordinance. Cross-references to "Chapter", "Article", and "Section" in this Ordinance shall refer to the corresponding Chapter, Article and Section as specified and referenced in the UDO. Capitalized terms that are not otherwise defined herein and are defined in the UDO shall have the meaning ascribed to them in the UDO. An amendment to the UDO shall apply to this Ordinance unless this Ordinance has specified an alternative development or design standard, and *Sec. 1.3.6. Transition Ordinance* also shall apply to amendments.

4. Allowed Uses

All uses permitted in the *R5 Residential District* shall be permitted in the residential areas.

B. Concept Plans

The Concept Plans, attached hereto as **Exhibit B.2**, are hereby incorporated. The Real Estate's Development Plan shall be substantially consistent with the Concept Plans and shall be reviewed and approved based upon compliance with the development and design standards set forth herein. If the Director determines that a Development Plan is not substantially consistent with the Concept Plans (the "Director's Determination"), then the Director shall notify the applicant in writing within ten (10) business days of receipt of the submitted Development Plan of: (1) the Director's Determination; and (2) whether the Development Plan is (a) approved; or (b) not approved (the "Director's Decision"). The Director's Decision shall be based upon the Development Plan's compatibility and consistency with the intended quality and character of the Flat Fork PUD. If the Director's Decision does not approve the Development Plan, then the applicant may submit the Development Plan to the City Council for review and approval. The City Council's decision shall be made at a public meeting, but no additional public hearing shall be required.

ORDINANCE NO. 041723C

C. Standards for the District

1. Introductory Provisions

The regulations of *CHAPTER 1. INTRODUCTORY PROVISIONS* shall apply.

2. Administration

The regulations of *CHAPTER 2. ADMINISTRATION* shall apply.

3. Zoning Districts

The regulations of *CHAPTER 3. ZONING DISTRICTS* shall apply, except as modified by this Ordinance. The total maximum number of lots within the Flat Fork PUD shall not exceed 225 lots.

a. Article 3.1. Establishment of Zoning Districts: Shall apply.

b. Article 3.2. Residential Districts: Shall apply, except as modified below:

(1) *Sec. 3.2.6. R5 Residential District:* Shall not apply; instead, the following shall apply:

Development Standards for the western PUD portion along Georgia Road

1. Minimum Lot Dimensions	
1a. Lot area	9,490 sf
1b. Lot width at building line – standard	73'
1c. Lot width at building line – corner	73'
1d. Lot frontage	50'
2. Minimum Building Setbacks	
2a. Front – local street / other street type	20' / 40'
2b. Side, primary structure	5'
2c. Rear, primary structure	35'
2d. Side, Aggregate	10'
3. Maximum Building Height	
3a. Primary structure	35'
4. Building Floor Area	
4a. Living unit area, 1-story (min)	1,500 sf
4b. Living unit area, 2-story (min)	1,800 sf
5. Other	
5a. Requires municipal water and sewer hookup	
5b. Impervious area of lot (max)	50%
5c. Alternative Standards	<i>Sec. 8.4.7. Conservation Development</i>
5d. Total structures per lot	<i>Sec. 6.8.1G. Structures Per Lot</i>
6. Maximum Lots Permitted	
6a. Maximum number of lots	95

ORDINANCE NO. 041723C

Development Standards for the eastern PUD portion along Cyntheanne Road

1. Minimum Lot Dimensions	
1a. Lot area	9,490 sf
1b. Lot width at building line – standard	73'
1c. Lot width at building line – corner	73'
1d. Lot frontage	50'
2. Minimum Building Setbacks	
2a. Front – local street / other street type	20' / 40'
2b. Side, primary structure	7.5'
2c. Rear, primary structure	35'
2d. Side, Aggregate	15'
3. Maximum Building Height	
3a. Primary structure	35'
4. Building Floor Area	
4a. Living unit area, 1-story (min)	1,500 sf
4b. Living unit area, 2-story (min)	1,800 sf
5. Other	
5a. Requires municipal water and sewer hookup	
5b. Impervious area of lot (max)	50%
5c. Alternative Standards	<i>Sec. 8.4.7. Conservation Development</i>
5d. Total structures per lot	<i>Sec. 6.8.1G. Structures Per Lot</i>
6. Maximum Lots Permitted	
6a. Maximum number of lots	130

c. Article 3.3. Nonresidential Districts: Shall not apply.

d. Article 3.4. Other Districts: Shall apply.

ORDINANCE NO. 041723C

4. Overlay Zoning Districts

The regulations of *CHAPTER 4. OVERLAY ZONING DISTRICTS* shall apply.

5. Use Regulations

The regulations of *CHAPTER 5. USE REGULATIONS* shall apply.

6. Development Standards

The regulations of *CHAPTER 6. DEVELOPMENT STANDARDS* shall apply, except as modified by this Ordinance.

a. Article 6.1. General Provisions: Shall apply.

b. Article 6.2. Accessory Structure Standards: Shall apply.

c. Article 6.3. Architectural Design Standards: Shall apply, except as modified below:

(1) The Illustrative Architectural Exhibit, attached hereto as **Exhibit B.3**, is hereby incorporated to illustrate conceptually the elements and anticipated character of and to establish a benchmark for the architecture and design of the residential dwellings on the Real Estate. The final dwelling designs may vary from the Illustrative Architectural Exhibit; however, the dwellings shall be substantially similar in quality and character to the dwellings shown in the Illustrative Architectural Exhibit.

(i)

Residential Cohesive Design
a. Buildings must orient, frame, and/or face direct pedestrian views.
b. Design and orient buildings not to impede access. The building should enhance the appeal of open space and pedestrian environments.
c. Incorporate architectural features on all sides of a building façade facing a Public View.
d. Provide for wayfinding signage and create a unique identity for each building or community, by incorporating complimentary variation in design.
e. Ensure that no two (2) buildings viewed from a Public View are alike, by varying at least two (2) of the following for each building: roof pitches, material types, color packages, structure orientation, or incorporate other unique and identifiable architectural or landscape element. See also <i>Sec. 8.2.2. Anti-Monotony Standards</i> .

Residential Building Form
a. Incorporate at least two (2) types of modulation in the façade plane, including, but not limited to: projections, recesses, and step backs that articulate wall planes and break up building mass.
b. Façades equal to or longer than 20' facing a Public View shall provide a minimum total modulation area of 20% of the horizontal wall span, with a minimum vertical height of at least 3' tall. Porches and balconies, at least 4' in depth may count toward this requirement.
c. Modulation for qualifying projections, pop outs, bays, recesses, and varied setbacks, must be a minimum depth of 12" from the primary façade plane. A minimum 50% of total modulation must be visible over permanent barriers, such as berms and fencing, from described areas.

Residential Building Form
d. On front façades, residential dwellings shall use any combination of allowed material type, color variation, banding, stringcourse, or modulation to clearly distinguish between the ground level and upper stories.
e. Incorporate visually heavier and more massive elements or materials, such as stone or masonry, primarily at the base of the buildings. Lighter elements and materials, such as siding, shall be above the heavier or more massive elements. This excludes columns, supports, modulated walls, architectural features, and roof elements.
f. Second-story residential façades may not extend to the front face without additional façade modulation or additional material types and architectural accents.
g. Residential buildings with attached units must articulate the design to differentiate façades of individual units or groups of units. Must consistently incorporate any two (2) of the following: modulation, material, or color variation.

Roof Standards
a. Align and correlate roof forms including elements over porches and entries, with the overall building design and use of materials. Examples include but are not limited to: continuation of roof forms with vertical elements such as columns, piers, and pilasters, or accenting gable type façades with rafters, corbels, or distinct material variations from other wall planes
b. Sloped roofs shall have a significant pitch, to be no less than 5/12.
c. Provide variations in roof profile including but not limited at least two (2) of the following: two (2) or more visible roof planes; dormers, lookout, turret, or cornice work such as corbels, spaced consistently along the façade plane.
d. Quality roof materials such as tile, slate, cedar shake with fire protection, 30-year asphalt shingles, dimensional asphalt or fiberglass shingles, high-quality standing seam metal roofing, or high-quality metal shingle roofing shall be used on all structures. All metal roofing shall be low-gloss and a base color.
e. All residential dwellings shall have eaves or overhangs a minimum of eleven (11) inches deep on the main roof. Depth shall be determined prior to the installation of the masonry. This shall not apply to front porches or dormers.

Automobile Storage Standards
a. Front loaded garages must have a minimum of a 20' setback from a sidewalk or trail.
b. Garage door area may not exceed 60% of the front façade of a building.
c. Every two (2) bays (not more than 25' wide) shall have a separate door, and shall have a 2' plane separation from adjacent door(s).
d. Decorative garage doors are required for front-loaded and side-loaded garages.
e. Carports must be attached to primary structure.
f. Detached garages and carports (multi-family only) must be designed in keeping with the primary structure and must utilize the same materials and color.
g. Each garage door shall include a decorative design substantially similar in quality and character to the garage doors shown in the Garage Door Exhibit, attached hereto as Exhibit B.4 .

Architectural Elements
a. Provide detailing that transition or frame the façade material changes, and that integrate architectural elements such as lighting, doorways, and windows. Examples include but are not limited to: cornices, decorative caps on brick or stone, decorative lintels, porch railing, transom light, and shutters.
b. Windows must be provided to allow views to exterior activity areas or vistas, and must be provided on any façade facing a pedestrian or common area used for children's recreation.
c. Anchor windows and other portals into building wall planes by integrating proportional detailing such as trim, lintels, shutters, railing, and ledges that match the building design for the façade of a building faces an entrance to an adjacent building, roadway, common area, or any viewable public area.
d. Primary building entries must be clearly defined using a combination of architectural elements, materials, or façade modulation meeting other architectural standards in this Article.
e. External stairwells must be integrated with the building design and provide residents protection from inclement weather. Use materials, modulation, and architectural elements which relate to and support other standards.
f. Mechanical and utility equipment shall comply with <i>Sec. 6.2.6. Mechanical & Utility Equipment</i> .

Materials
a. Residential Dwellings shall distinguish field materials from accent materials through pattern, texture, or additional detail visible from front facade. Alternate masonry or material courses may count toward this.
b. Where materials transition or terminate, provide detailing to express the natural appearance of the material. For example, wrap stone or stone-like products around visible corners to convey the appearance of mass, and not a thin veneer.
c. Use a cohesive color scheme featuring a minimum of two (2) field colors, a trim color, and an accent color or material. Garage door colors must coincide with this scheme or other accents.
d. Masonry as a qualifying accent material must be applied to 50% of the available wall length at a minimum height of 24" (excluding garage openings).
e. Use of neon, or extremely bright colors that can be distracting and may cause a visual nuisance shall not be used as a primary color.
f. Unfinished or manufactured color smooth face block, untextured concrete panels, and prefabricated steel panels are prohibited as a building façade finish, except an accent or secondary field material
g. The use of vinyl on single-family is allowed with the following standards: Shall be .052 gauge; decorative entryway with a 12" min. wide door trim; 30% masonry at the water table line as a secondary material; must include at least two (2) other architectural elements, including but limited to, cornices, corbels, columns, window shutters, gable vents, etc.; and must comply with all other standards in this Article.

(2) All lots designated with a black circle on the Additional Architecture Exhibit, attached hereto as **Exhibit B.5**, shall incorporate at least one (1) of the following features: (i) a rear covered porch; (ii) a rear covered patio; (iii) a rear morning room; (iv) a rear pergola; (v) a brick or stone wrap wainscot on all elevations up to the sill of the lowest first floor window; or (vi) any other rear façade extension.

ORDINANCE NO. 041723C

- d. **Article 6.4. Entrance & Driveway Standards:** Shall apply.
- e. **Article 6.5. Exterior Lighting Standards:** Shall apply.
- f. **Article 6.6. Height Standards:** Shall apply.
- g. **Article 6.7. Landscaping Standards:** Shall apply, except as modified below:
 - (1) The required landscaping in all common areas/open spaces shall be native species selected from the City of Fishers Planting Guide list of Approved Species, and emphasis shall be given to selecting drought tolerant varieties, at the discretion of the developer and/or property owner. This shall not apply to foundation plantings nor other on-lot landscaping. However, the initial install of street trees planted in the front yard, foundation plantings, and other plantings on individual home lots shall be required to be native species. Non-native species may be installed with prior approval by City staff.
 - (2) Varying species of plantings shall be used to protect against pest and disease. No more than thirty percent (30%) of total plant material may be of one species.
 - (3) *Subsection 6.7.5.B. Lot & Foundation Plantings; Foundation Planting:* Shall apply, except B.2 shall be capped at a maximum requirement of 12 shrubs or ornamental trees per residential building.
- h. **Article 6.8. Lot Standards:** Shall apply, except as modified by this Ordinance.
- i. **Article 6.9. Non-Residential Open Space:** Shall apply.
- j. **Article 6.10. Outdoor Display & Storage Standards:** Shall apply.
- k. **Article 6.11. Parking & Loading Standards:** Shall apply.
- l. **Article 6.12. Pedestrian Accessibility Standards:** Shall apply.
- m. **Article 6.13. Permitted Non-residential Structure Standards:** Shall apply.
- n. **Article 6.14. Property Identification Standards:** Shall apply.
- o. **Article 6.15. Public Art Standards:** Shall apply.
- p. **Article 6.16. Setback Standards:** Shall apply, except as modified by this Ordinance.
- q. **Article 6.17. Signage Standards:** Shall apply.
- r. **Article 6.18. Wall & Fence Standards:** Shall apply.
- s. **Article 6.19. Water & Sewer Standards:** Shall apply.
- t. **Article 6.20. Vision Clearance Standards:** Shall apply.

7. Subdivision Regulations

The regulations of *CHAPTER 7. SUBDIVISION DISTRICTS* shall apply.

8. Subdivision & Planned Unit Development Design Standards

The regulations of *CHAPTER 8. SUBDIVISION & PLANNED UNIT DEVELOPMENT DESIGN STANDARDS* shall apply, except as modified by this Ordinance.

- a. **Article 8.1. General Provisions:** Shall apply.
- b. **Article 8.2. Block, Lot & Access Standards:** Shall apply, except as modified below:
 - (1) *Subsection 8.2.2.C.1. Anti-Monotony; Anti-monotony Code; Front Façade:* Shall not apply. Instead, the following shall apply: Front façades on the same building model shall not be duplicated for two (2) lots on each side of the subject lot on the same side of the street. Also, front façades for the same building model may not be duplicated for five (5) lots across the street from the subject lot.
 - (2) *Subsection 8.2.5.B. Subdivision Access; Entrance Design:* Shall apply, except entrance shall be a minimum of 40 feet wide to provide one 16 feet wide inbound lane and two 12 feet wide outbound lanes extending at least 60 feet from the perimeter street's right-of-way line at the primary entrance to the subdivision.

ORDINANCE NO. 041723C

(3) *Subsection 8.2.6. Pedestrian Network*: Shall apply, except that the location and width of sidewalks and paths shall be installed as generally shown on the Pedestrian Connectivity Exhibits, attached hereto as **Exhibit B.6**, or as otherwise approved by the City’s Engineering Department.

c. Article 8.3. Street & Alley Standards: Shall apply.

d. Article 8.4. Open Space, Common Area & Amenity Standards: Shall apply, except as modified below

(1) Open Space shall be installed as generally shown on the Concept Plans and Pedestrian Connectivity Exhibits.

(2) As part of the secondary plat, the developer shall dedicate a thirty (30) foot public trail easement in the area generally identified on the Pedestrian Connectivity Exhibits (**Exhibit B.6**) as "Geist Greenway Easement".

(3) Plantings shall not be required within the Geist Greenway Easement.

e. Article 8.5. Other Design Standards: Shall apply, except as modified below:

(1) The detention pond may have natural pond edges provided it meets all other design standards.

9. Floodplain Standards

The regulations of *CHAPTER 9. FLOODPLAIN STANDARDS* shall apply.

10. Procedures & Permits

The regulations of *CHAPTER 10. PROCEDURES & PERMITS* shall apply.

11. Enforcement & Penalties

The regulations of *CHAPTER 11. ENFORCEMENT & PENALTIES* shall apply.

12. Definitions

The regulations of *CHAPTER 12. DEFINITIONS* shall apply.

13. Sustainability Standards

The following sustainability standard shall apply:

- a.** Rain barrels shall be permitted to be connected to the roof downspouts
- b.** Renewable energy, such as solar panels, shall be permitted subject to standards of the UDO.

14. Impact Fees

Regardless of the Real Estate’s annexation status at the time a building permit is issued, all applicable road, bridge and park impact fees shall be paid, subject to any applicable credits.

15. Low Maintenance Community (Georgia Road Site only)

The regular care and maintenance of the landscaping and lawns located within the portion of each single-family residential lot within the Georgia Road site development shall be the responsibility of the Homeowners Association to be formed for the residential development proposed for the Georgia Road site (the “HOA”). Such care and maintenance shall include specific services defined in the HOA documents, including but not limited to, lawn cutting, snow removal, and weed control within the development.

(Remainder of page intentionally left blank.)

TAB 1

EXECUTIVE SUMMARY	
FLAT FORK PUD	

NVR, Inc. (“Ryan Homes”), is pleased to present plans for the Flat Fork PUD, a new residential community split into two distinct neighborhoods. The Georgia Road site is located on the northeast corner of 96th Street and Georgia Road and is comprised of 50 acres of single-family detached, for-sale residential. The Cyntheanne Road site is located at the northwest corner of 96th Street and Cyntheanne Road and is comprised of 59 acres of single-family detached, for-sale residential. Please see the following tabs for additional information.

Collectively, the two neighborhoods are adjacent to two primary arterial roadways, the planned Geist Greenway trail, and Flat Fork Creek Park. Highlights of the new development include:

- A diverse mix of two home collections
 - Single-story, detached, 3-car garage homes on slabs and basement lots
 - Two-story, detached, 3-car garage homes on slabs and basement lots
- Geist Greenway trail improvements
- Pedestrian connectivity to new and existing parks and trails

Ryan Homes will feature up to thirteen unique floorplans (with a variety of elevations) with home sizes ranging between 1,500 and 4,000 square feet, with an expected average of 3,000 square feet. The price range is expected to be between \$400,000 and \$600,000, with an expected average of \$525,000. Similar homes are currently featured in the Turnberry neighborhood at the northwest corner of 126th Street and Atlantic Road.

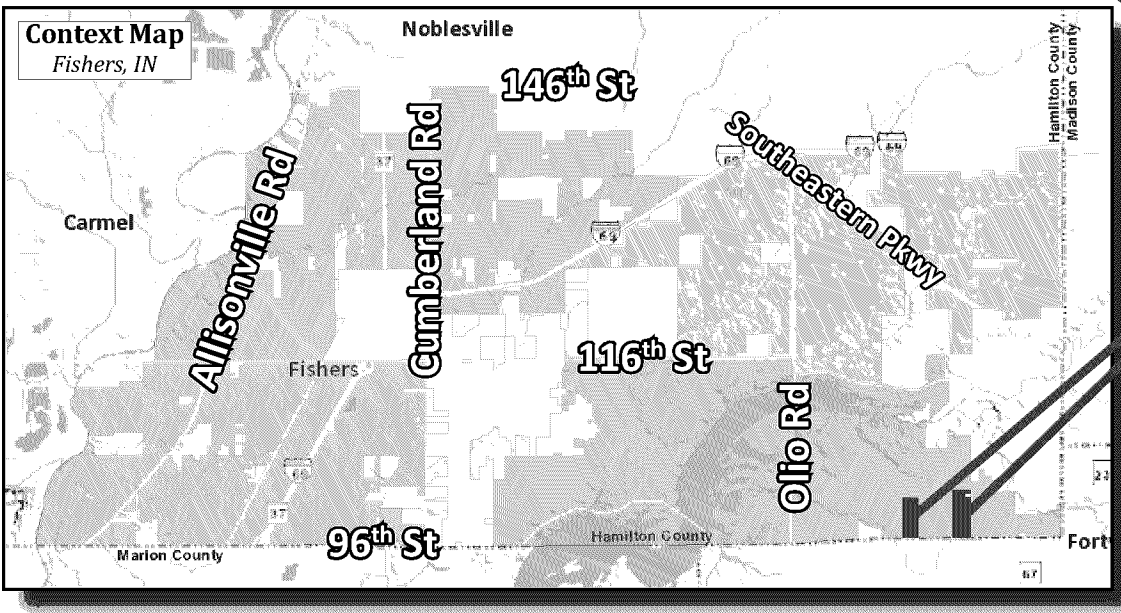

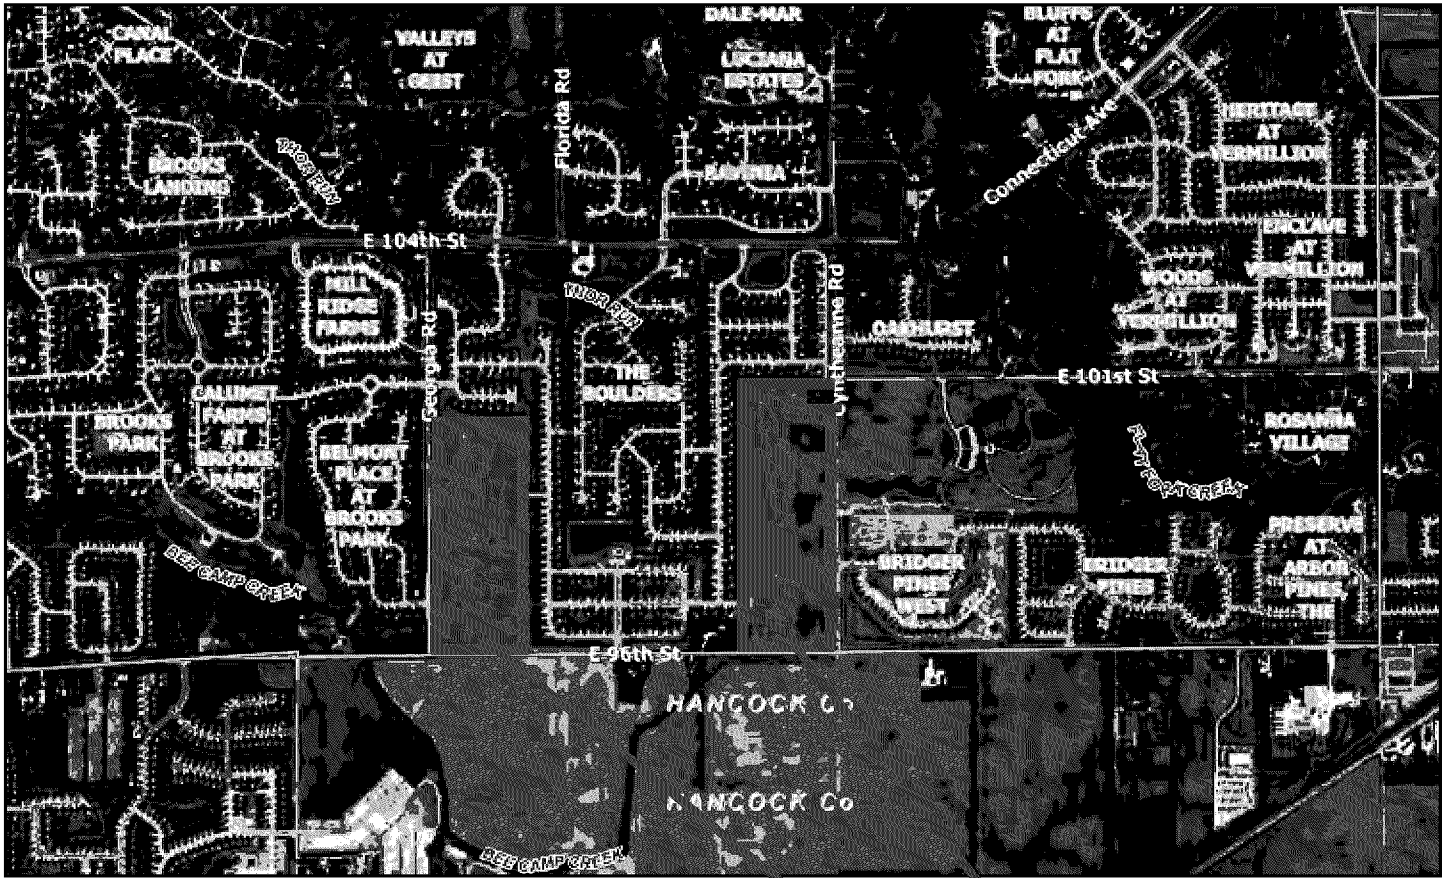

If approved, then site development work is anticipated to begin next year.

Thank you for your consideration.

GARAGE DOORS

MODEL **5120**

BUILDER

CLASSIC STEEL

Sonoma panel, Almond finish, Decorative hardware

DOOR FEATURES

Pinch-Resistant Panels

designed to push fingers out of harms way.

3-layer construction

Model 5120 utilizes a ToughGard® backer.

Foamed-In-Place Polyurethane Insulation

provides thermal efficiency with an R-value* of 9.

Integral Struts

add rigidity and strength for long life and smooth operation.

High Cycle Spring Option

Choose a 25,000 cycle spring for more than twice the life of a standard torsion spring.

TorqueMaster® Plus Counter Balance System

Contains springs safely inside a steel tube to prevent accidental release of tension that could cause injury and features anti-drop safety technology.

Wind Load Options

Available with structural reinforcements for use in coastal or high wind region.

Limited Lifetime Warranty

*Wayne Dalton uses a calculated door section R-value for our insulated doors.

ORDINANCE NO. 041723C

AN ORDINANCE OF THE COMMON COUNCIL OF THE CITY OF FISHERS, HAMILTON COUNTY, INDIANA, AMENDING THE OFFICIAL ZONING MAP TO REZONE 109.15 +/- ACRES FROM R2 TO PUD-R FOR A PROJECT KNOWN AS FLAT FORK PUD DISTRICT.

WHEREAS, this is an ordinance to amend the Official Zoning Map incorporated into the Unified Development Ordinance, (“UDO”), for the City of Fishers (the “City”), previously enacted pursuant to Ind. Code § 36-7-4 *et seq.* as amended.

WHEREAS, the Advisory Plan Commission for the City of Fishers (“Plan Commission”) has conducted a public hearing on Docket No. RZ-23-3 as required by law in regard to the Rezone; and

WHEREAS, the Plan Commission at its October 4, 2023 meeting sent a favorable recommendation to the Common Council by a vote of six (6) in favor and zero(0) opposed.

NOW, THEREFORE BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FISHERS, HAMILTON COUNTY, INDIANA, MEETING IN REGULAR SESSION AS FOLLOWS:

SECTION 1. The City’s Official Zoning Map is hereby amended to designate the Real Estate, as described and shown in Exhibit A, to PUD-R.

SECTION 2. This Ordinance shall be in full force and effect from and upon its adoption and in accordance with Indiana law.

SECTION 3. The specific zoning standards, concept plan, and illustrative architectural exhibit shall be approved as shown in Exhibit B (“Petitioner’s Packet”), attached.

SO BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FISHERS, HAMILTON COUNTY, INDIANA this 9th day of October, 2023.

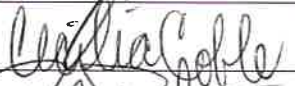

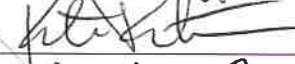

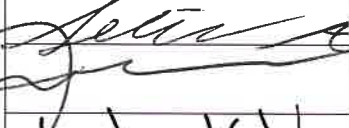

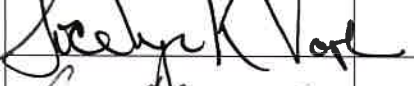

**COMMON COUNCIL OF THE CITY OF FISHERS,
HAMILTON COUNTY, INDIANA**

-  Real Estate

ORDINANCE NO. 041723C

A. Declaration, Purpose and Intent, Applicability, and Allowed Uses

1. Declaration

- a. Ordinance No. 041723C (this "Ordinance")
- b. Adopted: October 9, 2023

2. Purpose and Intent

The Unified Development Ordinance (the "UDO") of the City of Fishers, Indiana, Ordinance No. 062121B, as amended, and the Official Zoning Map of the City of Fishers, Indiana, as amended, which accompanies and is a part of the Zoning Code of the City of Fishers, Indiana, are hereby amended as follows:

The zoning classification of the real estate legally described in **Exhibit B.1**, attached hereto and incorporated herein (the "Real Estate"), is hereby designated as Planned Unit Development – Residential District (PUD-R) and shall hereafter be known as the "Flat Fork PUD".

Development of the Real Estate shall be governed entirely by the provisions of this Ordinance and those provisions of the UDO specifically referenced in this Ordinance. All provisions of the UDO that conflict with the provisions of this Ordinance are hereby rescinded as applied to the Real Estate and shall be superseded by the terms of this Ordinance.

3. Applicability

The standards of the UDO applicable to the *R5 Residential District* shall apply to the development, as shown on the Concept Plan, except as modified, revised, or expressly made inapplicable by this Ordinance. Cross-references to "Chapter", "Article", and "Section" in this Ordinance shall refer to the corresponding Chapter, Article and Section as specified and referenced in the UDO. Capitalized terms that are not otherwise defined herein and are defined in the UDO shall have the meaning ascribed to them in the UDO. An amendment to the UDO shall apply to this Ordinance unless this Ordinance has specified an alternative development or design standard, and *Sec. 1.3.6. Transition Ordinance* also shall apply to amendments.

4. Allowed Uses

All uses permitted in the *R5 Residential District* shall be permitted in the residential areas.

B. Concept Plans

The Concept Plans, attached hereto as **Exhibit B.2**, are hereby incorporated. The Real Estate's Development Plan shall be substantially consistent with the Concept Plans and shall be reviewed and approved based upon compliance with the development and design standards set forth herein. If the Director determines that a Development Plan is not substantially consistent with the Concept Plans (the "Director's Determination"), then the Director shall notify the applicant in writing within ten (10) business days of receipt of the submitted Development Plan of: (1) the Director's Determination; and (2) whether the Development Plan is (a) approved; or (b) not approved (the "Director's Decision"). The Director's Decision shall be based upon the Development Plan's compatibility and consistency with the intended quality and character of the Flat Fork PUD. If the Director's Decision does not approve the Development Plan, then the applicant may submit the Development Plan to the City Council for review and approval. The City Council's decision shall be made at a public meeting, but no additional public hearing shall be required.

C. Standards for the District

1. Introductory Provisions

The regulations of *CHAPTER 1. INTRODUCTORY PROVISIONS* shall apply.

2. Administration

The regulations of *CHAPTER 2. ADMINISTRATION* shall apply.

3. Zoning Districts

The regulations of *CHAPTER 3. ZONING DISTRICTS* shall apply, except as modified by this Ordinance. The total maximum number of lots within the Flat Fork PUD shall not exceed 225 lots.

a. Article 3.1. Establishment of Zoning Districts: Shall apply.

b. Article 3.2. Residential Districts: Shall apply, except as modified below:

(1) *Sec. 3.2.6. R5 Residential District:* Shall not apply; instead, the following shall apply:

Development Standards for the western PUD portion along Georgia Road

1. Minimum Lot Dimensions	
1a. Lot area	9,490 sf
1b. Lot width at building line – standard	73'
1c. Lot width at building line – corner	73'
1d. Lot frontage	50'
2. Minimum Building Setbacks	
2a. Front – local street / other street type	20' / 40'
2b. Side, primary structure	5'
2c. Rear, primary structure	35'
2d. Side, Aggregate	10'
3. Maximum Building Height	
3a. Primary structure	35'
4. Building Floor Area	
4a. Living unit area, 1-story (min)	1,500 sf
4b. Living unit area, 2-story (min)	1,800 sf
5. Other	
5a. Requires municipal water and sewer hookup	
5b. Impervious area of lot (max)	50%
5c. Alternative Standards	<i>Sec. 8.4.7. Conservation Development</i>
5d. Total structures per lot	<i>Sec. 6.8.1G. Structures Per Lot</i>
6. Maximum Lots Permitted	
6a. Maximum number of lots	95

ORDINANCE NO. 041723C

Development Standards for the eastern PUD portion along Cyntheanne Road

1. Minimum Lot Dimensions	
1a. Lot area	9,490 sf
1b. Lot width at building line – standard	73'
1c. Lot width at building line – corner	73'
1d. Lot frontage	50'
2. Minimum Building Setbacks	
2a. Front – local street / other street type	20' / 40'
2b. Side, primary structure	7.5'
2c. Rear, primary structure	35'
2d. Side, Aggregate	15'
3. Maximum Building Height	
3a. Primary structure	35'
4. Building Floor Area	
4a. Living unit area, 1-story (min)	1,500 sf
4b. Living unit area, 2-story (min)	1,800 sf
5. Other	
5a. Requires municipal water and sewer hookup	
5b. Impervious area of lot (max)	50%
5c. Alternative Standards	<i>Sec. 8.4.7. Conservation Development</i>
5d. Total structures per lot	<i>Sec. 6.8.1G. Structures Per Lot</i>
6. Maximum Lots Permitted	
6a. Maximum number of lots	130

c. Article 3.3. Nonresidential Districts: Shall not apply.

d. Article 3.4. Other Districts: Shall apply.

ORDINANCE NO. 041723C

4. Overlay Zoning Districts

The regulations of *CHAPTER 4. OVERLAY ZONING DISTRICTS* shall apply.

5. Use Regulations

The regulations of *CHAPTER 5. USE REGULATIONS* shall apply.

6. Development Standards

The regulations of *CHAPTER 6. DEVELOPMENT STANDARDS* shall apply, except as modified by this Ordinance.

a. Article 6.1. General Provisions: Shall apply.

b. Article 6.2. Accessory Structure Standards: Shall apply.

c. Article 6.3. Architectural Design Standards: Shall apply, except as modified below:

(1) The Illustrative Architectural Exhibit, attached hereto as **Exhibit B.3**, is hereby incorporated to illustrate conceptually the elements and anticipated character of and to establish a benchmark for the architecture and design of the residential dwellings on the Real Estate. The final dwelling designs may vary from the Illustrative Architectural Exhibit; however, the dwellings shall be substantially similar in quality and character to the dwellings shown in the Illustrative Architectural Exhibit.

(i)

Residential Cohesive Design
a. Buildings must orient, frame, and/or face direct pedestrian views.
b. Design and orient buildings not to impede access. The building should enhance the appeal of open space and pedestrian environments.
c. Incorporate architectural features on all sides of a building façade facing a Public View.
d. Provide for wayfinding signage and create a unique identity for each building or community, by incorporating complimentary variation in design.
e. Ensure that no two (2) buildings viewed from a Public View are alike, by varying at least two (2) of the following for each building: roof pitches, material types, color packages, structure orientation, or incorporate other unique and identifiable architectural or landscape element. See also <i>Sec. 8.2.2. Anti-Monotony Standards</i> .

Residential Building Form
a. Incorporate at least two (2) types of modulation in the façade plane, including, but not limited to: projections, recesses, and step backs that articulate wall planes and break up building mass.
b. Façades equal to or longer than 20' facing a Public View shall provide a minimum total modulation area of 20% of the horizontal wall span, with a minimum vertical height of at least 3' tall. Porches and balconies, at least 4' in depth may count toward this requirement.
c. Modulation for qualifying projections, pop outs, bays, recesses, and varied setbacks, must be a minimum depth of 12" from the primary façade plane. A minimum 50% of total modulation must be visible over permanent barriers, such as berms and fencing, from described areas.

Residential Building Form
d. On front façades, residential dwellings shall use any combination of allowed material type, color variation, banding, stringcourse, or modulation to clearly distinguish between the ground level and upper stories.
e. Incorporate visually heavier and more massive elements or materials, such as stone or masonry, primarily at the base of the buildings. Lighter elements and materials, such as siding, shall be above the heavier or more massive elements. This excludes columns, supports, modulated walls, architectural features, and roof elements.
f. Second-story residential façades may not extend to the front face without additional façade modulation or additional material types and architectural accents.
g. Residential buildings with attached units must articulate the design to differentiate façades of individual units or groups of units. Must consistently incorporate any two (2) of the following: modulation, material, or color variation.

Roof Standards
a. Align and correlate roof forms including elements over porches and entries, with the overall building design and use of materials. Examples include but are not limited to: continuation of roof forms with vertical elements such as columns, piers, and pilasters, or accenting gable type façades with rafters, corbels, or distinct material variations from other wall planes
b. Sloped roofs shall have a significant pitch, to be no less than 5/12.
c. Provide variations in roof profile including but not limited at least two (2) of the following: two (2) or more visible roof planes; dormers, lookout, turret, or cornice work such as corbels, spaced consistently along the façade plane.
d. Quality roof materials such as tile, slate, cedar shake with fire protection, 30-year asphalt shingles, dimensional asphalt or fiberglass shingles, high-quality standing seam metal roofing, or high-quality metal shingle roofing shall be used on all structures. All metal roofing shall be low-gloss and a base color.
e. All residential dwellings shall have eaves or overhangs a minimum of eleven (11) inches deep on the main roof. Depth shall be determined prior to the installation of the masonry. This shall not apply to front porches or dormers.

Automobile Storage Standards
a. Front loaded garages must have a minimum of a 20' setback from a sidewalk or trail.
b. Garage door area may not exceed 60% of the front façade of a building.
c. Every two (2) bays (not more than 25' wide) shall have a separate door, and shall have a 2' plane separation from adjacent door(s).
d. Decorative garage doors are required for front-loaded and side-loaded garages.
e. Carports must be attached to primary structure.
f. Detached garages and carports (multi-family only) must be designed in keeping with the primary structure and must utilize the same materials and color.
g. Each garage door shall include a decorative design substantially similar in quality and character to the garage doors shown in the Garage Door Exhibit, attached hereto as Exhibit B.4 .

Architectural Elements
a. Provide detailing that transition or frame the façade material changes, and that integrate architectural elements such as lighting, doorways, and windows. Examples include but are not limited to: cornices, decorative caps on brick or stone, decorative lintels, porch railing, transom light, and shutters.
b. Windows must be provided to allow views to exterior activity areas or vistas, and must be provided on any façade facing a pedestrian or common area used for children's recreation.
c. Anchor windows and other portals into building wall planes by integrating proportional detailing such as trim, lintels, shutters, railing, and ledges that match the building design for the façade of a building faces an entrance to an adjacent building, roadway, common area, or any viewable public area.
d. Primary building entries must be clearly defined using a combination of architectural elements, materials, or façade modulation meeting other architectural standards in this Article.
e. External stairwells must be integrated with the building design and provide residents protection from inclement weather. Use materials, modulation, and architectural elements which relate to and support other standards.
f. Mechanical and utility equipment shall comply with <i>Sec. 6.2.6. Mechanical & Utility Equipment</i> .

Materials
a. Residential Dwellings shall distinguish field materials from accent materials through pattern, texture, or additional detail visible from front facade. Alternate masonry or material courses may count toward this.
b. Where materials transition or terminate, provide detailing to express the natural appearance of the material. For example, wrap stone or stone-like products around visible corners to convey the appearance of mass, and not a thin veneer.
c. Use a cohesive color scheme featuring a minimum of two (2) field colors, a trim color, and an accent color or material. Garage door colors must coincide with this scheme or other accents.
d. Masonry as a qualifying accent material must be applied to 50% of the available wall length at a minimum height of 24" (excluding garage openings).
e. Use of neon, or extremely bright colors that can be distracting and may cause a visual nuisance shall not be used as a primary color.
f. Unfinished or manufactured color smooth face block, untextured concrete panels, and prefabricated steel panels are prohibited as a building façade finish, except an accent or secondary field material
g. The use of vinyl on single-family is allowed with the following standards: Shall be .052 gauge; decorative entryway with a 12" min. wide door trim; 30% masonry at the water table line as a secondary material; must include at least two (2) other architectural elements, including but limited to, cornices, corbels, columns, window shutters, gable vents, etc.; and must comply with all other standards in this Article.

- (2) All lots designated with a black circle on the Additional Architecture Exhibit, attached hereto as **Exhibit B.5**, shall incorporate at least one (1) of the following features: (i) a rear covered porch; (ii) a rear covered patio; (iii) a rear morning room; (iv) a rear pergola; (v) a brick or stone wrap wainscot on all elevations up to the sill of the lowest first floor window; or (vi) any other rear façade extension.

ORDINANCE NO. 041723C

- d. Article 6.4. Entrance & Driveway Standards:** Shall apply.
- e. Article 6.5. Exterior Lighting Standards:** Shall apply.
- f. Article 6.6. Height Standards:** Shall apply.
- g. Article 6.7. Landscaping Standards:** Shall apply, except as modified below:
 - (1) The required landscaping in all common areas/open spaces shall be native species selected from the City of Fishers Planting Guide list of Approved Species, and emphasis shall be given to selecting drought tolerant varieties, at the discretion of the developer and/or property owner. This shall not apply to foundation plantings nor other on-lot landscaping. However, the initial install of street trees planted in the front yard, foundation plantings, and other plantings on individual home lots shall be required to be native species. Non-native species may be installed with prior approval by City staff.
 - (2) Varying species of plantings shall be used to protect against pest and disease. No more than thirty percent (30%) of total plant material may be of one species.
 - (3) *Subsection 6.7.5.B. Lot & Foundation Plantings; Foundation Planting:* Shall apply, except B.2 shall be capped at a maximum requirement of 12 shrubs or ornamental trees per residential building.
- h. Article 6.8. Lot Standards:** Shall apply, except as modified by this Ordinance.
- i. Article 6.9. Non-Residential Open Space:** Shall apply.
- j. Article 6.10. Outdoor Display & Storage Standards:** Shall apply.
- k. Article 6.11. Parking & Loading Standards:** Shall apply.
- l. Article 6.12. Pedestrian Accessibility Standards:** Shall apply.
- m. Article 6.13. Permitted Non-residential Structure Standards:** Shall apply.
- n. Article 6.14. Property Identification Standards:** Shall apply.
- o. Article 6.15. Public Art Standards:** Shall apply.
- p. Article 6.16. Setback Standards:** Shall apply, except as modified by this Ordinance.
- q. Article 6.17. Signage Standards:** Shall apply.
- r. Article 6.18. Wall & Fence Standards:** Shall apply.
- s. Article 6.19. Water & Sewer Standards:** Shall apply.
- t. Article 6.20. Vision Clearance Standards:** Shall apply.

7. Subdivision Regulations

The regulations of *CHAPTER 7. SUBDIVISION DISTRICTS* shall apply.

8. Subdivision & Planned Unit Development Design Standards

The regulations of *CHAPTER 8. SUBDIVISION & PLANNED UNIT DEVELOPMENT DESIGN STANDARDS* shall apply, except as modified by this Ordinance.

- a. Article 8.1. General Provisions:** Shall apply.
- b. Article 8.2. Block, Lot & Access Standards:** Shall apply, except as modified below:
 - (1) *Subsection 8.2.2.C.1. Anti-Monotony; Anti-monotony Code; Front Façade:* Shall not apply. Instead, the following shall apply: Front façades on the same building model shall not be duplicated for two (2) lots on each side of the subject lot on the same side of the street. Also, front façades for the same building model may not be duplicated for five (5) lots across the street from the subject lot.
 - (2) *Subsection 8.2.5.B. Subdivision Access; Entrance Design:* Shall apply, except entrance shall be a minimum of 40 feet wide to provide one 16 feet wide inbound lane and two 12 feet wide outbound lanes extending at least 60 feet from the perimeter street's right-of-way line at the primary entrance to the subdivision.

ORDINANCE NO. 041723C

(3) *Subsection 8.2.6. Pedestrian Network*: Shall apply, except that the location and width of sidewalks and paths shall be installed as generally shown on the Pedestrian Connectivity Exhibits, attached hereto as **Exhibit B.6**, or as otherwise approved by the City’s Engineering Department.

c. Article 8.3. Street & Alley Standards: Shall apply.

d. Article 8.4. Open Space, Common Area & Amenity Standards: Shall apply, except as modified below

(1) Open Space shall be installed as generally shown on the Concept Plans and Pedestrian Connectivity Exhibits.

(2) As part of the secondary plat, the developer shall dedicate a thirty (30) foot public trail easement in the area generally identified on the Pedestrian Connectivity Exhibits (**Exhibit B.6**) as "Geist Greenway Easement".

(3) Plantings shall not be required within the Geist Greenway Easement.

e. Article 8.5. Other Design Standards: Shall apply, except as modified below:

(1) The detention pond may have natural pond edges provided it meets all other design standards.

9. Floodplain Standards

The regulations of *CHAPTER 9. FLOODPLAIN STANDARDS* shall apply.

10. Procedures & Permits

The regulations of *CHAPTER 10. PROCEDURES & PERMITS* shall apply.

11. Enforcement & Penalties

The regulations of *CHAPTER 11. ENFORCEMENT & PENALTIES* shall apply.

12. Definitions

The regulations of *CHAPTER 12. DEFINITIONS* shall apply.

13. Sustainability Standards

The following sustainability standard shall apply:

- a.** Rain barrels shall be permitted to be connected to the roof downspouts
- b.** Renewable energy, such as solar panels, shall be permitted subject to standards of the UDO.

14. Impact Fees

Regardless of the Real Estate’s annexation status at the time a building permit is issued, all applicable road, bridge and park impact fees shall be paid, subject to any applicable credits.

15. Low Maintenance Community (Georgia Road Site only)

The regular care and maintenance of the landscaping and lawns located within the portion of each single-family residential lot within the Georgia Road site development shall be the responsibility of the Homeowners Association to be formed for the residential development proposed for the Georgia Road site (the “HOA”). Such care and maintenance shall include specific services defined in the HOA documents, including but not limited to, lawn cutting, snow removal, and weed control within the development.

ORDINANCE NO. 041723C

Exhibit B.1 – Real Estate Description and Depiction

GEORGIA ROAD SITE, REZONE DESCRIPTION

A part of the Southwest Quarter of Section 7, Township 17 North, Range 6 East, in Fall Creek Township, Hamilton County, Indiana, more particularly described as follows:

Beginning at a point South 89 degrees 31 minutes 27 seconds West 375.80 feet of the Southeast corner of said Southwest Quarter Section to the centerline of an Electric Line Easement as recorded in Deed Record 183, pages 45-46, in the Office of the Recorder of Hamilton County, Indiana, being the point of beginning of this description; thence along the centerline of said Electric Line Easement by the next three (3) courses: 1) North 00 degrees 11 minutes 03 seconds West 824.19 feet; 2) North 00 degrees 09 minutes 08 seconds West 815.70 feet; 3) North 00 degrees 08 minutes 50 seconds West 666.84 feet; thence South 89 degrees 31 minutes 27 seconds West parallel to the South line of said Quarter Section a distance of 948.68 feet to the West line of the East Half of said Quarter Section; thence South 00 degrees 16 minutes 36 seconds East to the South line of said Quarter Section a distance of 2,307.09 feet; thence North 89 degrees 31 minutes 27 seconds East along the South line of said Quarter Section a distance of 944.06 feet to the point of beginning, containing 50.105 acres, more or less.

CYNTHEANNE ROAD SITE, REZONE DESCRIPTION (WITH OVERLAP)

Part of the Southeast Quarter of Section 7, Township 17 North, Range 6 East of the Second Principal Meridian, Hamilton County, Indiana, more particularly described as follows:

BEGINNING at the northeast corner of said Southeast Quarter; thence South 00 degrees 33 minutes 20 seconds East 100.00 feet along the east line of said Southeast Quarter (the bearings in this description are based on a survey prepared by Curtis C. Huff, recorded as Instrument Number 200500063272 in the Office of the Recorder of Hamilton County, Indiana) to the northeast corner of Heritage Minor Subdivision, per plat thereof, recorded as Instrument Number 9609624712 in the Office of said Recorder, the following three (3) courses are along the north, west and south lines of said plat; 1)thence South 89 degrees 17 minutes 46 seconds West 300.00 feet; 2)thence South 00 degrees 33 minutes 20 seconds East 200.00 feet; 3)thence North 89 degrees 17 minutes 46 seconds East 300.00 feet to the east line of said Southeast Quarter, the following two (2) courses are along the east and south lines thereof; 1)thence South 00 degrees 33 minutes 20 seconds East 2,357.19 feet to the southeast corner of said Southeast Quarter; 2)thence South 89 degrees 33 minutes 28 seconds West 994.88 feet to the southwest corner of Overlap Tract No. 1 as described on said survey; thence North 00 degrees 24 minutes 15 seconds West 2,652.67 feet along the west line of said Overlap Tract No. 1 and the east lines of Tracts "B", "C" and "D" as shown on said survey to the north line of said Southeast Quarter; thence North 89 degrees 17 minutes 46 seconds East 987.87 feet along said north line to the POINT OF BEGINNING. Containing 59.045 acres, more or less.

EXECUTIVE SUMMARY

FLAT FORK PUD

NVR, Inc. (“Ryan Homes”), is pleased to present plans for the Flat Fork PUD, a new residential community split into two distinct neighborhoods. The Georgia Road site is located on the northeast corner of 96th Street and Georgia Road and is comprised of 50 acres of single-family detached, for-sale residential. The Cyntheanne Road site is located at the northwest corner of 96th Street and Cyntheanne Road and is comprised of 59 acres of single-family detached, for-sale residential. Please see the following tabs for additional information.

Collectively, the two neighborhoods are adjacent to two primary arterial roadways, the planned Geist Greenway trail, and Flat Fork Creek Park. Highlights of the new development include:

- A diverse mix of two home collections
 - Single-story, detached, 3-car garage homes on slabs and basement lots
 - Two-story, detached, 3-car garage homes on slabs and basement lots
- Geist Greenway trail improvements
- Pedestrian connectivity to new and existing parks and trails

Ryan Homes will feature up to thirteen unique floorplans (with a variety of elevations) with home sizes ranging between 1,500 and 4,000 square feet, with an expected average of 3,000 square feet. The price range is expected to be between \$400,000 and \$600,000, with an expected average of \$525,000. Similar homes are currently featured in the Turnberry neighborhood at the northwest corner of 126th Street and Atlantic Road.

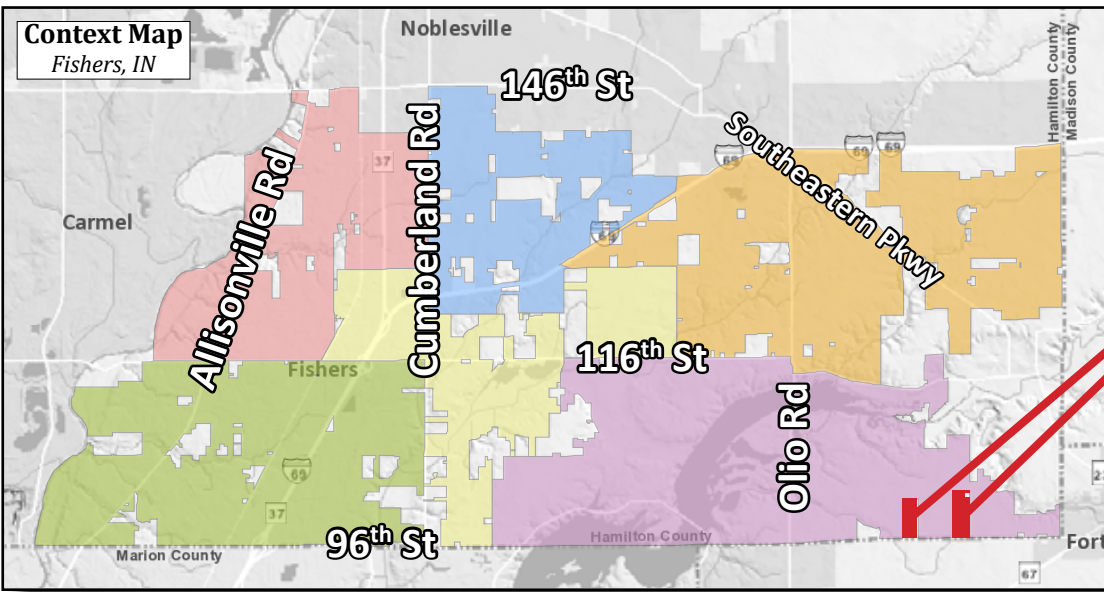

If approved, then site development work is anticipated to begin next year.

Thank you for your consideration.

MODEL **5120**
BUILDER

CLASSIC STEEL

Sonoma panel, Almond finish, Decorative hardware

DOOR FEATURES

Pinch-Resistant Panels

designed to push fingers out of harm's way.

3-layer construction

Model 5120 utilizes a ToughGard® backer.

Foamed-In-Place Polyurethane Insulation

provides thermal efficiency with an R-value* of 9.

Integral Struts

add rigidity and strength for long life and smooth operation.

High Cycle Spring Option

Choose a 25,000 cycle spring for more than twice the life of a standard torsion spring.

TorqueMaster® Plus Counter Balance System

Contains springs safely inside a steel tube to prevent accidental release of tension that could cause injury and features anti-drop safety technology.

Wind Load Options

Available with structural reinforcements for use in coastal or high wind region.

Limited Lifetime Warranty

*Wayne Dalton uses a calculated door section R-value for our insulated doors.

ORDINANCE NO. 041723C

AN ORDINANCE OF THE COMMON COUNCIL OF THE CITY OF FISHERS, HAMILTON COUNTY, INDIANA, AMENDING THE OFFICIAL ZONING MAP TO REZONE 109.15 +/- ACRES FROM R2 TO PUD-R FOR A PROJECT KNOWN AS FLAT FORK PUD DISTRICT.

WHEREAS, this is an ordinance to amend the Official Zoning Map incorporated into the Unified Development Ordinance, (“UDO”), for the City of Fishers (the “City”), previously enacted pursuant to Ind. Code § 36-7-4 *et seq.* as amended.

WHEREAS, the Advisory Plan Commission for the City of Fishers (“Plan Commission”) has conducted a public hearing on Docket No. RZ-23-3 as required by law in regard to the Rezone; and

WHEREAS, the Plan Commission at its October 4, 2023 meeting sent a _____ recommendation to the Common Council by a vote of _____ () in favor and _____ () opposed.

NOW, THEREFORE BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FISHERS, HAMILTON COUNTY, INDIANA, MEETING IN REGULAR SESSION AS FOLLOWS:

SECTION 1. The City’s Official Zoning Map is hereby amended to designate the Real Estate, as described and shown in **Exhibit A**, to PUD-R.

SECTION 2. This Ordinance shall be in full force and effect from and upon its adoption and in accordance with Indiana law.

SECTION 3. The specific zoning standards, concept plan, and illustrative architectural exhibit shall be approved as shown in **Exhibit B** (“Petitioner’s Packet”), attached.

SO BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FISHERS, HAMILTON COUNTY, INDIANA this _____ day of _____, 2023.

- Real Estate

ORDINANCE NO. 041723C

A. Declaration, Purpose and Intent, Applicability, and Allowed Uses

1. Declaration

- a. Ordinance No. 041723C (this "Ordinance")
- b. Adopted: October 9, 2023

2. Purpose and Intent

The Unified Development Ordinance (the "UDO") of the City of Fishers, Indiana, Ordinance No. 062121B, as amended, and the Official Zoning Map of the City of Fishers, Indiana, as amended, which accompanies and is a part of the Zoning Code of the City of Fishers, Indiana, are hereby amended as follows:

The zoning classification of the real estate legally described in **Exhibit B.1**, attached hereto and incorporated herein (the "Real Estate"), is hereby designated as Planned Unit Development – Residential District (PUD-R) and shall hereafter be known as the "Flat Fork PUD".

Development of the Real Estate shall be governed entirely by the provisions of this Ordinance and those provisions of the UDO specifically referenced in this Ordinance. All provisions of the UDO that conflict with the provisions of this Ordinance are hereby rescinded as applied to the Real Estate and shall be superseded by the terms of this Ordinance.

3. Applicability

The standards of the UDO applicable to the *R5 Residential District* shall apply to the development, as shown on the Concept Plan, except as modified, revised, or expressly made inapplicable by this Ordinance. Cross-references to "Chapter", "Article", and "Section" in this Ordinance shall refer to the corresponding Chapter, Article and Section as specified and referenced in the UDO. Capitalized terms that are not otherwise defined herein and are defined in the UDO shall have the meaning ascribed to them in the UDO. An amendment to the UDO shall apply to this Ordinance unless this Ordinance has specified an alternative development or design standard, and *Sec. 1.3.6. Transition Ordinance* also shall apply to amendments.

4. Allowed Uses

All uses permitted in the *R5 Residential District* shall be permitted in the residential areas.

B. Concept Plans

The Concept Plans, attached hereto as **Exhibit B.2**, are hereby incorporated. The Real Estate's Development Plan shall be substantially consistent with the Concept Plans and shall be reviewed and approved based upon compliance with the development and design standards set forth herein. If the Director determines that a Development Plan is not substantially consistent with the Concept Plans (the "Director's Determination"), then the Director shall notify the applicant in writing within ten (10) business days of receipt of the submitted Development Plan of: (1) the Director's Determination; and (2) whether the Development Plan is (a) approved; or (b) not approved (the "Director's Decision"). The Director's Decision shall be based upon the Development Plan's compatibility and consistency with the intended quality and character of the Flat Fork PUD. If the Director's Decision does not approve the Development Plan, then the applicant may submit the Development Plan to the City Council for review and approval. The City Council's decision shall be made at a public meeting, but no additional public hearing shall be required.

C. Standards for the District

1. Introductory Provisions

The regulations of *CHAPTER 1. INTRODUCTORY PROVISIONS* shall apply.

2. Administration

The regulations of *CHAPTER 2. ADMINISTRATION* shall apply.

3. Zoning Districts

The regulations of *CHAPTER 3. ZONING DISTRICTS* shall apply, except as modified by this Ordinance. The total maximum number of lots within the Flat Fork PUD shall not exceed 225 lots.

a. Article 3.1. Establishment of Zoning Districts: Shall apply.

b. Article 3.2. Residential Districts: Shall apply, except as modified below:

(1) *Sec. 3.2.6. R5 Residential District:* Shall not apply; instead, the following shall apply:

Development Standards for the western PUD portion along Georgia Road

1. Minimum Lot Dimensions	
1a. Lot area	9,490 sf
1b. Lot width at building line – standard	73'
1c. Lot width at building line – corner	73'
1d. Lot frontage	50'
2. Minimum Building Setbacks	
2a. Front – local street / other street type	20' / 40'
2b. Side, primary structure	5'
2c. Rear, primary structure	35'
2d. Side, Aggregate	10'
3. Maximum Building Height	
3a. Primary structure	35'
4. Building Floor Area	
4a. Living unit area, 1-story (min)	1,500 sf
4b. Living unit area, 2-story (min)	1,800 sf
5. Other	
5a. Requires municipal water and sewer hookup	
5b. Impervious area of lot (max)	50%
5c. Alternative Standards	<i>Sec. 8.4.7. Conservation Development</i>
5d. Total structures per lot	<i>Sec. 6.8.1G. Structures Per Lot</i>
6. Maximum Lots Permitted	
6a. Maximum number of lots	95

ORDINANCE NO. 041723C

Development Standards for the eastern PUD portion along Cyntheanne Road

1. Minimum Lot Dimensions	
1a. Lot area	9,490 sf
1b. Lot width at building line – standard	73'
1c. Lot width at building line – corner	73'
1d. Lot frontage	50'
2. Minimum Building Setbacks	
2a. Front – local street / other street type	20' / 40'
2b. Side, primary structure	7.5'
2c. Rear, primary structure	35'
2d. Side, Aggregate	15'
3. Maximum Building Height	
3a. Primary structure	35'
4. Building Floor Area	
4a. Living unit area, 1-story (min)	1,500 sf
4b. Living unit area, 2-story (min)	1,800 sf
5. Other	
5a. Requires municipal water and sewer hookup	
5b. Impervious area of lot (max)	50%
5c. Alternative Standards	<i>Sec. 8.4.7. Conservation Development</i>
5d. Total structures per lot	<i>Sec. 6.8.1G. Structures Per Lot</i>
6. Maximum Lots Permitted	
6a. Maximum number of lots	130

c. Article 3.3. Nonresidential Districts: Shall not apply.

d. Article 3.4. Other Districts: Shall apply.

ORDINANCE NO. 041723C

4. Overlay Zoning Districts

The regulations of *CHAPTER 4. OVERLAY ZONING DISTRICTS* shall apply.

5. Use Regulations

The regulations of *CHAPTER 5. USE REGULATIONS* shall apply.

6. Development Standards

The regulations of *CHAPTER 6. DEVELOPMENT STANDARDS* shall apply, except as modified by this Ordinance.

a. Article 6.1. General Provisions: Shall apply.

b. Article 6.2. Accessory Structure Standards: Shall apply.

c. Article 6.3. Architectural Design Standards: Shall apply, except as modified below:

(1) The Illustrative Architectural Exhibit, attached hereto as **Exhibit B.3**, is hereby incorporated to illustrate conceptually the elements and anticipated character of and to establish a benchmark for the architecture and design of the residential dwellings on the Real Estate. The final dwelling designs may vary from the Illustrative Architectural Exhibit; however, the dwellings shall be substantially similar in quality and character to the dwellings shown in the Illustrative Architectural Exhibit.

(i)

Residential Cohesive Design
a. Buildings must orient, frame, and/or face direct pedestrian views.
b. Design and orient buildings not to impede access. The building should enhance the appeal of open space and pedestrian environments.
c. Incorporate architectural features on all sides of a building façade facing a Public View.
d. Provide for wayfinding signage and create a unique identity for each building or community, by incorporating complimentary variation in design.
e. Ensure that no two (2) buildings viewed from a Public View are alike, by varying at least two (2) of the following for each building: roof pitches, material types, color packages, structure orientation, or incorporate other unique and identifiable architectural or landscape element. See also <i>Sec. 8.2.2. Anti-Monotony Standards</i> .

Residential Building Form
a. Incorporate at least two (2) types of modulation in the façade plane, including, but not limited to: projections, recesses, and step backs that articulate wall planes and break up building mass.
b. Façades equal to or longer than 20' facing a Public View shall provide a minimum total modulation area of 20% of the horizontal wall span, with a minimum vertical height of at least 3' tall. Porches and balconies, at least 4' in depth may count toward this requirement.
c. Modulation for qualifying projections, pop outs, bays, recesses, and varied setbacks, must be a minimum depth of 12" from the primary façade plane. A minimum 50% of total modulation must be visible over permanent barriers, such as berms and fencing, from described areas.

Residential Building Form
d. On front façades, residential dwellings shall use any combination of allowed material type, color variation, banding, stringcourse, or modulation to clearly distinguish between the ground level and upper stories.
e. Incorporate visually heavier and more massive elements or materials, such as stone or masonry, primarily at the base of the buildings. Lighter elements and materials, such as siding, shall be above the heavier or more massive elements. This excludes columns, supports, modulated walls, architectural features, and roof elements.
f. Second-story residential façades may not extend to the front face without additional façade modulation or additional material types and architectural accents.
g. Residential buildings with attached units must articulate the design to differentiate façades of individual units or groups of units. Must consistently incorporate any two (2) of the following: modulation, material, or color variation.

Roof Standards
a. Align and correlate roof forms including elements over porches and entries, with the overall building design and use of materials. Examples include but are not limited to: continuation of roof forms with vertical elements such as columns, piers, and pilasters, or accenting gable type façades with rafters, corbels, or distinct material variations from other wall planes
b. Sloped roofs shall have a significant pitch, to be no less than 5/12.
c. Provide variations in roof profile including but not limited at least two (2) of the following: two (2) or more visible roof planes; dormers, lookout, turret, or cornice work such as corbels, spaced consistently along the façade plane.
d. Quality roof materials such as tile, slate, cedar shake with fire protection, 30-year asphalt shingles, dimensional asphalt or fiberglass shingles, high-quality standing seam metal roofing, or high-quality metal shingle roofing shall be used on all structures. All metal roofing shall be low-gloss and a base color.
e. All residential dwellings shall have eaves or overhangs a minimum of eleven (11) inches deep on the main roof. Depth shall be determined prior to the installation of the masonry. This shall not apply to front porches or dormers.

Automobile Storage Standards
a. Front loaded garages must have a minimum of a 20' setback from a sidewalk or trail.
b. Garage door area may not exceed 60% of the front façade of a building.
c. Every two (2) bays (not more than 25' wide) shall have a separate door, and shall have a 2' plane separation from adjacent door(s).
d. Decorative garage doors are required for front-loaded and side-loaded garages.
e. Carports must be attached to primary structure.
f. Detached garages and carports (multi-family only) must be designed in keeping with the primary structure and must utilize the same materials and color.
g. Each garage door shall include a decorative design substantially similar in quality and character to the garage doors shown in the Garage Door Exhibit, attached hereto as Exhibit B.4 .

Architectural Elements
a. Provide detailing that transition or frame the façade material changes, and that integrate architectural elements such as lighting, doorways, and windows. Examples include but are not limited to: cornices, decorative caps on brick or stone, decorative lintels, porch railing, transom light, and shutters.
b. Windows must be provided to allow views to exterior activity areas or vistas, and must be provided on any façade facing a pedestrian or common area used for children's recreation.
c. Anchor windows and other portals into building wall planes by integrating proportional detailing such as trim, lintels, shutters, railing, and ledges that match the building design for the façade of a building faces an entrance to an adjacent building, roadway, common area, or any viewable public area.
d. Primary building entries must be clearly defined using a combination of architectural elements, materials, or façade modulation meeting other architectural standards in this Article.
e. External stairwells must be integrated with the building design and provide residents protection from inclement weather. Use materials, modulation, and architectural elements which relate to and support other standards.
f. Mechanical and utility equipment shall comply with <i>Sec. 6.2.6. Mechanical & Utility Equipment</i> .

Materials
a. Residential Dwellings shall distinguish field materials from accent materials through pattern, texture, or additional detail visible from front facade. Alternate masonry or material courses may count toward this.
b. Where materials transition or terminate, provide detailing to express the natural appearance of the material. For example, wrap stone or stone-like products around visible corners to convey the appearance of mass, and not a thin veneer.
c. Use a cohesive color scheme featuring a minimum of two (2) field colors, a trim color, and an accent color or material. Garage door colors must coincide with this scheme or other accents.
d. Masonry as a qualifying accent material must be applied to 50% of the available wall length at a minimum height of 24" (excluding garage openings).
e. Use of neon, or extremely bright colors that can be distracting and may cause a visual nuisance shall not be used as a primary color.
f. Unfinished or manufactured color smooth face block, untextured concrete panels, and prefabricated steel panels are prohibited as a building façade finish, except an accent or secondary field material
g. The use of vinyl on single-family is allowed with the following standards: Shall be .052 gauge; decorative entryway with a 12" min. wide door trim; 30% masonry at the water table line as a secondary material; must include at least two (2) other architectural elements, including but limited to, cornices, corbels, columns, window shutters, gable vents, etc.; and must comply with all other standards in this Article.

- (2) All lots designated with a black circle on the Additional Architecture Exhibit, attached hereto as **Exhibit B.5**, shall incorporate at least one (1) of the following features: (i) a rear covered porch; (ii) a rear covered patio; (iii) a rear morning room; (iv) a rear pergola; (v) a brick or stone wrap wainscot on all elevations up to the sill of the lowest first floor window; or (vi) any other rear façade extension.

ORDINANCE NO. 041723C

- d. Article 6.4. Entrance & Driveway Standards:** Shall apply.
- e. Article 6.5. Exterior Lighting Standards:** Shall apply.
- f. Article 6.6. Height Standards:** Shall apply.
- g. Article 6.7. Landscaping Standards:** Shall apply, except as modified below:
 - (1) The required landscaping in all common areas/open spaces shall be native species selected from the City of Fishers Planting Guide list of Approved Species, and emphasis shall be given to selecting drought tolerant varieties, at the discretion of the developer and/or property owner. This shall not apply to foundation plantings nor other on-lot landscaping. However, the initial install of street trees planted in the front yard, foundation plantings, and other plantings on individual home lots shall be required to be native species. Non-native species may be installed with prior approval by City staff.
 - (2) Varying species of plantings shall be used to protect against pest and disease. No more than thirty percent (30%) of total plant material may be of one species.
 - (3) *Subsection 6.7.5.B. Lot & Foundation Plantings; Foundation Planting:* Shall apply, except B.2 shall be capped at a maximum requirement of 12 shrubs or ornamental trees per residential building.
- h. Article 6.8. Lot Standards:** Shall apply, except as modified by this Ordinance.
- i. Article 6.9. Non-Residential Open Space:** Shall apply.
- j. Article 6.10. Outdoor Display & Storage Standards:** Shall apply.
- k. Article 6.11. Parking & Loading Standards:** Shall apply.
- l. Article 6.12. Pedestrian Accessibility Standards:** Shall apply.
- m. Article 6.13. Permitted Non-residential Structure Standards:** Shall apply.
- n. Article 6.14. Property Identification Standards:** Shall apply.
- o. Article 6.15. Public Art Standards:** Shall apply.
- p. Article 6.16. Setback Standards:** Shall apply, except as modified by this Ordinance.
- q. Article 6.17. Signage Standards:** Shall apply.
- r. Article 6.18. Wall & Fence Standards:** Shall apply.
- s. Article 6.19. Water & Sewer Standards:** Shall apply.
- t. Article 6.20. Vision Clearance Standards:** Shall apply.

7. Subdivision Regulations

The regulations of *CHAPTER 7. SUBDIVISION DISTRICTS* shall apply.

8. Subdivision & Planned Unit Development Design Standards

The regulations of *CHAPTER 8. SUBDIVISION & PLANNED UNIT DEVELOPMENT DESIGN STANDARDS* shall apply, except as modified by this Ordinance.

- a. Article 8.1. General Provisions:** Shall apply.
- b. Article 8.2. Block, Lot & Access Standards:** Shall apply, except as modified below:
 - (1) *Subsection 8.2.2.C.1. Anti-Monotony; Anti-monotony Code; Front Façade:* Shall not apply. Instead, the following shall apply: Front façades on the same building model shall not be duplicated for two (2) lots on each side of the subject lot on the same side of the street. Also, front façades for the same building model may not be duplicated for five (5) lots across the street from the subject lot.
 - (2) *Subsection 8.2.5.B. Subdivision Access; Entrance Design:* Shall apply, except entrance shall be a minimum of 40 feet wide to provide one 16 feet wide inbound lane and two 12 feet wide outbound lanes extending at least 60 feet from the perimeter street's right-of-way line at the primary entrance to the subdivision.

ORDINANCE NO. 041723C

(3) *Subsection 8.2.6. Pedestrian Network*: Shall apply, except that the location and width of sidewalks and paths shall be installed as generally shown on the Pedestrian Connectivity Exhibits, attached hereto as **Exhibit B.6**, or as otherwise approved by the City’s Engineering Department.

c. Article 8.3. Street & Alley Standards: Shall apply.

d. Article 8.4. Open Space, Common Area & Amenity Standards: Shall apply, except as modified below

(1) Open Space shall be installed as generally shown on the Concept Plans and Pedestrian Connectivity Exhibits.

(2) As part of the secondary plat, the developer shall dedicate a thirty (30) foot public trail easement in the area generally identified on the Pedestrian Connectivity Exhibits (**Exhibit B.6**) as "Geist Greenway Easement".

(3) Plantings shall not be required within the Geist Greenway Easement.

e. Article 8.5. Other Design Standards: Shall apply, except as modified below:

(1) The detention pond may have natural pond edges provided it meets all other design standards.

9. Floodplain Standards

The regulations of *CHAPTER 9. FLOODPLAIN STANDARDS* shall apply.

10. Procedures & Permits

The regulations of *CHAPTER 10. PROCEDURES & PERMITS* shall apply.

11. Enforcement & Penalties

The regulations of *CHAPTER 11. ENFORCEMENT & PENALTIES* shall apply.

12. Definitions

The regulations of *CHAPTER 12. DEFINITIONS* shall apply.

13. Sustainability Standards

The following sustainability standard shall apply:

a. Rain barrels shall be permitted to be connected to the roof downspouts

b. Renewable energy, such as solar panels, shall be permitted subject to standards of the UDO.

14. Impact Fees

Regardless of the Real Estate’s annexation status at the time a building permit is issued, all applicable road, bridge and park impact fees shall be paid, subject to any applicable credits.

15. Low Maintenance Community (Georgia Road Site only)

The regular care and maintenance of the landscaping and lawns located within the portion of each single-family residential lot within the Georgia Road site development shall be the responsibility of the Homeowners Association to be formed for the residential development proposed for the Georgia Road site (the “HOA”). Such care and maintenance shall include specific services defined in the HOA documents, including but not limited to, lawn cutting, snow removal, and weed control within the development.

(Remainder of page intentionally left blank.)

ORDINANCE NO. 041723C

Exhibit B.1 – Real Estate Description and Depiction

GEORGIA ROAD SITE, REZONE DESCRIPTION

A part of the Southwest Quarter of Section 7, Township 17 North, Range 6 East, in Fall Creek Township, Hamilton County, Indiana, more particularly described as follows:

Beginning at a point South 89 degrees 31 minutes 27 seconds West 375.80 feet of the Southeast corner of said Southwest Quarter Section to the centerline of an Electric Line Easement as recorded in Deed Record 183, pages 45-46, in the Office of the Recorder of Hamilton County, Indiana, being the point of beginning of this description; thence along the centerline of said Electric Line Easement by the next three (3) courses: 1) North 00 degrees 11 minutes 03 seconds West 824.19 feet; 2) North 00 degrees 09 minutes 08 seconds West 815.70 feet; 3) North 00 degrees 08 minutes 50 seconds West 666.84 feet; thence South 89 degrees 31 minutes 27 seconds West parallel to the South line of said Quarter Section a distance of 948.68 feet to the West line of the East Half of said Quarter Section; thence South 00 degrees 16 minutes 36 seconds East to the South line of said Quarter Section a distance of 2,307.09 feet; thence North 89 degrees 31 minutes 27 seconds East along the South line of said Quarter Section a distance of 944.06 feet to the point of beginning, containing 50.105 acres, more or less.

CYNTHEANNE ROAD SITE, REZONE DESCRIPTION (WITH OVERLAP)

Part of the Southeast Quarter of Section 7, Township 17 North, Range 6 East of the Second Principal Meridian, Hamilton County, Indiana, more particularly described as follows:

BEGINNING at the northeast corner of said Southeast Quarter; thence South 00 degrees 33 minutes 20 seconds East 100.00 feet along the east line of said Southeast Quarter (the bearings in this description are based on a survey prepared by Curtis C. Huff, recorded as Instrument Number 200500063272 in the Office of the Recorder of Hamilton County, Indiana) to the northeast corner of Heritage Minor Subdivision, per plat thereof, recorded as Instrument Number 9609624712 in the Office of said Recorder, the following three (3) courses are along the north, west and south lines of said plat; 1)thence South 89 degrees 17 minutes 46 seconds West 300.00 feet; 2)thence South 00 degrees 33 minutes 20 seconds East 200.00 feet; 3)thence North 89 degrees 17 minutes 46 seconds East 300.00 feet to the east line of said Southeast Quarter, the following two (2) courses are along the east and south lines thereof; 1)thence South 00 degrees 33 minutes 20 seconds East 2,357.19 feet to the southeast corner of said Southeast Quarter; 2)thence South 89 degrees 33 minutes 28 seconds West 994.88 feet to the southwest corner of Overlap Tract No. 1 as described on said survey; thence North 00 degrees 24 minutes 15 seconds West 2,652.67 feet along the west line of said Overlap Tract No. 1 and the east lines of Tracts "B", "C" and "D" as shown on said survey to the north line of said Southeast Quarter; thence North 89 degrees 17 minutes 46 seconds East 987.87 feet along said north line to the POINT OF BEGINNING. Containing 59.045 acres, more or less.

City Council Staff Report

Meeting Date: October 9, 2023

DEPARTMENT CONTACT:

Ross Hilleary, Director (hillearyr@fishers.in.us)

CASE NUMBER:

RZ-23-3

PETITIONER:

NVR, Inc. (d/b/a Ryan Homes)

PROPERTY ADDRESS/LOCATION:

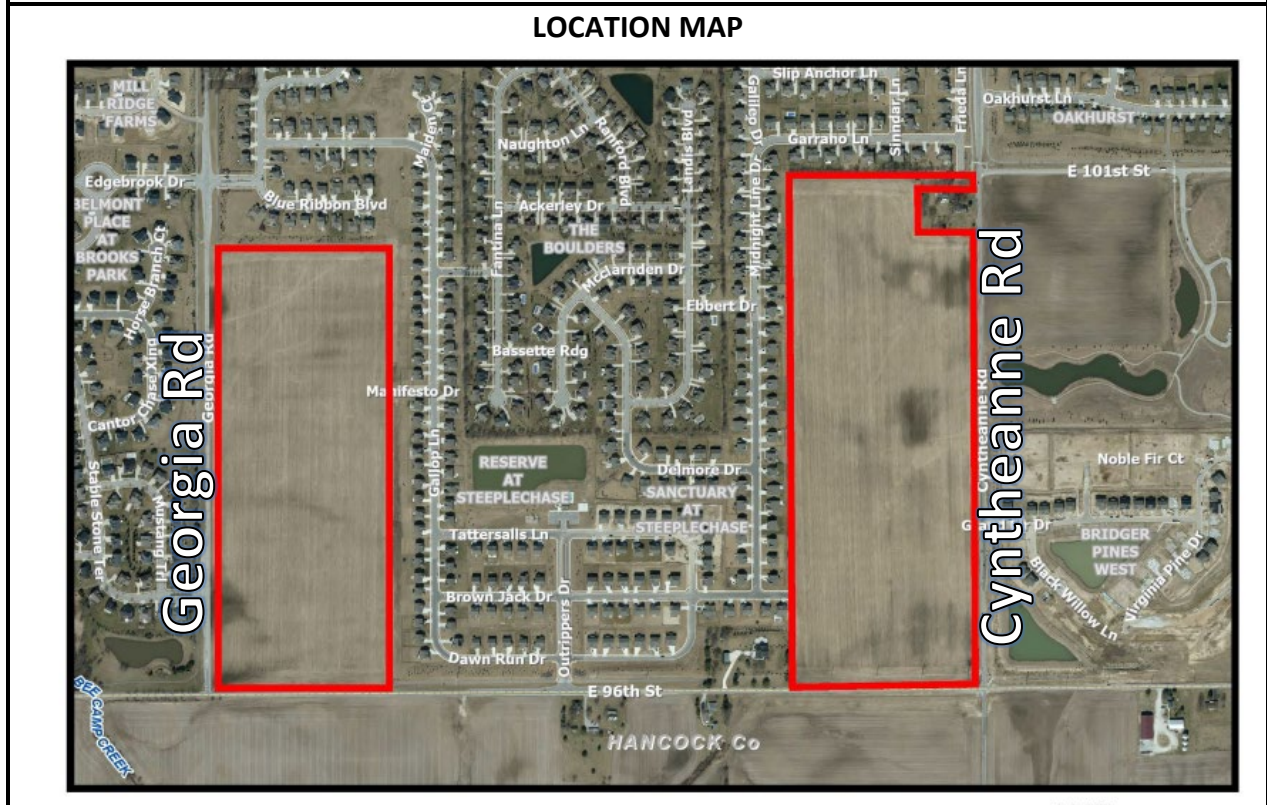

Generally located on the north side of 96th Street, between Georgia and Cyntheanne Rd.

REQUEST:

Consideration of a rezone of 109 acres from R2 Residential to PUD-M. The Flat Fork PUD would include a maximum of 225 single-family homes on the north side of 96th Street, between Georgia and Cyntheanne Road.

EXISTING ZONING: R2 Residential	PROPOSED ZONING: PUD-M (Flat Fork)	FISHERS 2040: Suburban Residential
---	--	--

LOT SIZE: 109 acres

PETITION OVERVIEW:

Faegre Drinker, LLP on behalf of Grand Communities LLC requests a rezone of 109 acres from R-2 to PUD-R. The new zoning district will be known as the 'Flat Fork PUD'. The project consists of 225 single-family residential lots. Please reference the Petitioner's Packet for the proposed Concept Plan and Illustrative Architectural Exhibit for the proposed homes to be built.

Development Standards

The underlying zoning district for this PUD will incorporate the R5 Residential Zoning District development standards found within the City's Unified Development Ordinance (UDO), except as modified by the proposed ordinance identified below in red. Several standards were been revised since the June Plan Commission meeting. These include an increase in the minimum lot size, lot width, side setback for the East property, rear setback, minimum living area, and a decrease in the maximum impervious surface coverage.

	R2 Residential (Current Zoning)	R5 Residential	Flat Fork PUD (West)	Flat Fork PUD (East)
1. Minimum Lot Dimensions				
1a. Lot area	15,000 sf	7,500 sf	9,490 sf	9,490 sf
1b. Lot width at building line – standard	100'	70'	73'	73'
1c. Lot width at building line – corner	120'	84'	73'	73'
1d. Lot frontage	50'	50'	50'	50'
2. Minimum Building Setbacks				
2a. Front - local street / other street type	40' / 55'	25' / 40'	20' / 40'	20' / 40'
2b. Side	15'	10'	5'	7.5'
2c. Rear	40'	25'	35'	35'
3. Maximum Building Height				
3a. Primary structure	35'	35'	35'	35'
4. Building Floor Area				
4a. Living unit area, 1-story (min)	1,600 sf	1,000 sf	1,500 sf	1,500 sf
4b. Living unit area, 2-story (min)	1,800 sf	1,200 sf	1,800 sf	1,800 sf
5. Other				
5b. Impervious area of lot (max)	35%	50%	50%	50%

Concept Plan

The Concept Plan shown below will be incorporated into the PUD Ordinance. The Real Estate's Development Plan shall be substantially consistent with the Concept Plan and shall be reviewed and approved based upon compliance with the development and design standards set forth in the PUD. **The commercial area has been removed and replaced with residential lots.**

Overall Concept Plan – Georgia & Cyntheanne Road

Detailed Concept Plan – Georgia Road

Detailed Concept Plan – Cyntheanne Road

Architectural Exhibits

The Illustrative Architectural Exhibit will be incorporated into the PUD Ordinance to illustrate conceptually the elements and anticipated character of and to establish a benchmark for the architecture and design of the residential dwellings on the Real Estate. The final dwelling designs may vary from the Illustrative Architectural Exhibit; however, the dwellings shall be substantially similar in quality and character to the dwellings shown in the Illustrative Architectural Exhibit. The Illustrative Architectural Exhibit was approved by the PUD Committee on June 7, 2023. Additional home elevations will be reviewed by the PUD Committee at their November 1, 2023 meeting.

Open Space and Landscaping

Open Space shall be provided as shown on the Concept Plan and includes an internal trail network through the development, including a portion of the Geist Greenway. All required landscaping will be native species as selected from the City of Fishers Planting Guide list of Approved Species. Emphasis will be given to drought tolerant variances.

McCordsville is planning a city park property to the south of the Giest Greenway, which will provide additional open space access for residents of both Hamilton and Hancock County.

Traffic and Road Conditions

In 2022 the City of Fishers and A&F Engineering completed a Road and Bridge Impact Fee Study in which the anticipated traffic generated from future development was reviewed in order to determine what future roadway improvements would be needed. During that assessment the subject properties were anticipated to have a future total of 260 total single-family homes. The petitioner is proposing less homes at 220.

The City resurfaced both Georgia Rd and Cyntheanne Rd from 96th to 104th St this year. There is a Roundabout in design for 96th and Cyntheanne with construction currently planned for 2025.

The developer would be required to mill and resurface the road within the furthest limits of their improvements (turn-lane, passing blister, acceleration, and deceleration lanes). They would also be required to widen existing thru-lanes to 12' within those same limits if not already at 12' wide.

There may need to be widening of the roadway by the developer to meet the 12' lane minimum width requirement. City staff will review the locations where passing blisters acceleration (accel) and deceleration (decel) lanes may be needed and determine what improvements may be required during the Technical Advisory Committee (TAC) review.

SURROUNDING LAND USE & ZONING:

North: PUDR – Steeplechase (Single-Family Residential)

East: PUDR – Steeplechase / Flat Fork Creek Park – (Single-Family Residential & Open Space) and – PUDR Bridger Pines II [Bridger Pines West] (Single-Family Residential)

South: McCordsville / Hancock County jurisdiction (Single-Family Residential & Open Space)

West: PUDM – Southeast Fishers (Single-Family Residential) & PUDR – Steeplechase (Single-Family Residential)

Staff has met with McCordsville to the south regarding land use within their jurisdiction. McCordsville has approved Haven Ponds subdivision, a 250-home project on 146 acres in total, with one section under McCordsville TAC review. This development is to be built by Silverthorne / Arbor Homes with a future access located at Georia Road. Coordination with Fishers engineering will be required.

Pending McCordsville Plan Commission is a second proposed development called Helm’s Mill, a 234-home project on 98 acres in total. This proposed development is to be built by M/I Homes. Coordination with Fishers Engineering Department will be required for ROW dedication.

A public park is proposed between the developments, south of the Giest Greenway.

Haven Ponds subdivision (left) is an approved development and Helm’s Mill subdivision is proposed.

SUMMARY OF NEIGHBORHOOD MEETINGS AND PUBLIC COMMENTS:

During 1st Reading at City Council concerns were voiced by Councilperson DeReamer regarding the proposed 5' side setbacks and the overall length of local roads within the development. Planning has met with the Fishers Engineering & Stormwater staff to discuss setbacks and there are no concerns with drainage at this time. We believe all standards for proper lot drainage can be accommodated with the setbacks as proposed. Side setbacks have been increased to 7.5' on the eastern property.

Councilperson Coble requested enhanced architecture on the rear of homes facing Primary or Secondary arterial. These have been included in the petitioner packet. Language has been added to the PUD Ordinance to require additional modulation on rear of homes facing a public road.

A neighborhood meeting was held by the petitioner on Monday, May 8, 2023. Concerns regarding the proposed commercial area were voiced. The surrounding neighbors had questions about what this commercial area would be. At this time the petitioner does not have any immediate plans for commercial development and was unable to answer these questions.

On June 7, 2023 Plan Commission held a public hearing. During the meeting we heard from several residents who were opposed to commercial uses being allowed. Concerns regarding the smaller lot sizes compared to the surrounding neighborhoods were also heard. Several standards have been revised since the June Plan Commission meeting. These include removing the commercial, increasing the minimum lot size, lot width, side setback for the East property, rear setback, minimum living area, and a decrease in the maximum impervious surface coverage.

The Petition sought a third continuance at the September Plan Commission and was granted by the Committee.

The petitioner has met with the surrounding neighbors, Councilor DeReamer, Councilor Peterson, and Councilor Zimmerman to review the changes that are being brought forward.

Written public comments received by staff are included in the attachments.

At the November 4, 2023 Plan Commission meeting, Plan Commission sends a favorable recommendation to City Council, 6 – 0.

STAFF RECOMMENDATION:

The Fishers 2040 Plan identifies this area as Suburban Residential. The density for the proposed PUD is 2 units/acre which aligns with the Suburban Residential classification. The Fishers 2040 identifies the commercial area as Neighborhood Service Area. Although this classification does align with commercial, the area is surrounded by residential uses and staff would like to see a more detailed concept plan and preliminary architectural drawings for any commercial being introduced into this area in order to determine our support. **No commercial is proposed as part of this PUD.**

Staff is supportive of the Flat Fork PUD ordinance rezoning from R-2 to PUD-RESIDENTIAL as the project will be more restrictive in design and development, far exceeding UDO minimum standards.

Re: Single-Family Resident Developments
Combined Georgia Road / Cyntheanne Road / 96th Street

Hatem,

At your request, I have reviewed the proposed developments that will be located along Georgia Street, Cyntheanne Road, and CR N 500 W. There will be a total of four developments that occur within this area: two north of 96th Street, which will contain 84 single-family home lots and 124 single-family home lots. South of 96th Street will be two developments with approximately 250 and 240 lots. Access to these developments will be by Cyntheanne Road, Georgia Street, and CR N 500 W. As currently planned, the developments south of 96th Street will connect at Georgia Street to create a four-legged intersection. Based on the proximity of the developments, the majority of the traffic will exit and enter the sites from the south. Approximately 65% of that traffic will make use of Pendleton Pike. Therefore, the remaining 35% will make use of 96th Street.

I have reviewed the number of trips that each of these developments will generate based on the number of units being built. Currently, the intersection of Georgia Street and 96th Street is a three-leg intersection with one approach lane for each direction. Georgia Street is stop-sign controlled while 96th Street is free-flowing. Based on the number of units that are being built, and the fact that the intersection of Georgia Street and 96th Street will become a 4-way intersection, A&F Engineering is recommending that right turn and left turn lane be added onto 96th Street for these developments. This could be obtained in one of two ways:

1. Widen 96th Street 12 feet in the center of the roadway to provide for the left turn lane and widen the south side of 96th Street by 12 feet to provide for a right turn lane. This would provide opposing left turn lanes on 96th Street from east and west bound directions and right turn lane into the new south leg of Georgia Street.
2. Widen 96th Street 12 feet on the north side and south side for a total of 48 feet. This can then be striped as a right turn/passing blister system for both the east bound and west bound traffic.

In a review of the Road and Bridge Fee Impact Study completed in 2022 for the City of Fishers, the Georgia Road site north of 96th Street was studied with 117 lots and the Cyntheanne Road site north of 96th Street was studied with 143 lots. Therefore, the recommendations made in the Fishers Roadway Impact Study are valid. The access points

for the two developments should be designed as one inbound lane and two outbound lanes. Passing blisters and right turn lanes should be installed along Georgia Road and Cyntheanne Road.

These recommendations for the intersection of 96th Street and Georgia Road are based on the two developments south of 96th Street. If these were not going to be installed, the level of service at Georgia Street and 96th Street would continue to operate at an acceptable level with the developments north of 96th Street fully developed until 2032.

Please let me know if you have any questions.

Sincerely,
A&F Engineering Co., LLC

PUBLIC COMMENT

To: Megan Vulkusich
From: Richard Hoffman
CC: Pete Peterson, Brad DeReamer, Kari Adriano, Scott Wallace, Steve Huney, Donna Hunley, Kyle Theobald
Date: 26 July 2023
Re: Public perspective and other information regarding the Flat Fork PUD Rezone, Case: RZ-23-3

Comments: Following the 07 June 2023 City of Fishers Planning Commission meeting pertaining to Case: RZ-23-3, a petition was authored which provided background information on the proposal put forward by Ryan homes and the owner of the current properties. The petition contained the following proposal and asked residents for support and comment:

- *I am against any proposed rezoning of the 109 acres to a commercial designation.*
- *I am against any proposed rezoning of the 109 acres to a residential designation that is less than current standards. Any rezoning should be consistent with surrounding neighborhood lot size and building floor area (i.e., not less than 0.25 acres and a minimum of ~1,900 sq feet for single story or minimum of ~2,500 sq feet for 2-story)*

The planned meeting date for further discussion on this case is set for 06 September 2023. At that time, public comments will refer to some of the content included within this document. It is acknowledged that the petitioner has submitted updated plans for development as noted in the agenda [2276 \(fishers.in.us\)](#). However, the updated proposal was posted only days before the scheduled meeting, while the last communication regarding the potential 4 acres of commercial property was not finalized. Therefore, the position of the petitioners and their voiced concerns remain noteworthy.

The following have been provided for your consideration:

Appendix A. Petition Posted on Change.Org

Appendix B. 259 Names Supporting Petition (234 electronic & 25 wet signatures)

Appendix C. Public Comments Associated with Petition

Appendix A. Petition Posted on Change.Org

BELMONT PLACE AND STEEPLE CHASE HOMEOWNERS

On 07 June 2023, the city of Fishers Plan Commission held a board meeting to discuss a proposal brought forward by NVR, Inc. (i.e., Ryan Homes) for a planned residential and commercial development on the north side of 96th St and Georgia road. The planning commission meeting is planning to reconvene in early August for further discussion on this property and we need your input and assistance. Please respond to in support of the proposed petition.

PETITION

- I am against any proposed rezoning of the 109 acres to a commercial designation.
- I am against any proposed rezoning of the 109 acres to a residential designation that is less than current standards. Any rezoning should be consistent with surrounding neighborhood lot size and building floor area (i.e., not less than 0.25 acres and a minimum of ~1,900 sq feet for single story or minimum of ~2,500 sq feet for 2-story)

BACKGROUND INFORMATION

On 07 June 2023, a consideration was made to rezone of 109 acres from R2 Residential to PUD-M (i.e., a Planned Unit Development which is a variance to the established Fishers City's Unified Development Ordinance (UDO) (Document Viewer | Online Unified Development Ordinance (encodeplus.com)). The Flat Fork PUD would include a maximum of 220 single-family homes on the north side of 96th Street, between Georgia and Cyntheanne Road, and a C2 Commercial area at the northeast corner of 96th & Georgia. There was NO proposal for the commercial property provided at the meeting, but a request was made to rezone it 2220 (fishers.in.us). See photo below.

The UDO lists several codes and requirements for residential districts ranging from R1 (largest lots, largest setbacks, etc.) to R5 which is the smallest residential district. The current property under debate is currently zoned R2.

At the meeting, Ryan proposed a variance to build homes on properties that were significantly smaller than required by the UDO. A comparison to the zoning allowances & agreements for surrounding neighborhoods as well as the current UDO code, is provided in below (data obtained from the UDO, Ryan's proposal, and PUDs for Belmont Place

<https://www.fishers.in.us/DocumentCenter/View/29342/Southeast-Fishers-PUD-Ordinance-061807> and SteepleChase(<https://www.fishers.in.us/DocumentCenter/View/29354/071513B-REPEALED-Steeplechase>)

We need your help to ensure this property is not zoned for commercial. If it is rezoned from R2, it should be consistent with surrounding neighborhood standards. Please respond and support this petition. Thanks!

HOMEOWNER PETITION

On 07 June 2023, the city of Fishers Plan Commission held a board meeting to discuss a proposal brought forward by NVR, Inc. (i.e., Ryan Homes) for a planned residential and commercial development on the north side of 96th St and Georgia road. The planning commission meeting is planning to reconvene in early August for further discussion on this property and we need your input and assistance.

PETITION

- I am against any proposed rezoning of the 109 acres to a commercial designation.
- I am against any proposed rezoning of the 109 acres to a residential designation that is less than current standards. Any rezoning should be consistent with surrounding neighborhood lot size and building floor area (i.e., not less than 0.25 acres and a minimum of ~1,900 sq feet for single story or minimum of ~2,500 sq feet for 2-story)

Ashley Clark

1 week ago

I live in Steeplechase, and this affects my family.

Pamela Gebhardt

1 week ago

There is no need or a want for a commercial property at this location. This will absolutely drive down our home values. Also, the roads would not be able to accommodate this extra traffic.

Kayla Theobald

2 weeks ago

No one wants to see commercial property behind their home or cheap homes that drag down resale value. This is an upscale area and has enough commercial properties on Olio.

Kyle Theobald

2 weeks ago

Surrounding homes should complement neighborhoods nearby instead of being subpar and reducing other home values.

Renee Wolf

3 weeks ago

We do not want commercial property. There is no infrastructure to support additional traffic.

Jenna Grimes

3 weeks ago

The infrastructure is not in place on Georgia Rd at 96th or 104th street to support a commercial property or additional housing. There is no need for commercial property off of Georgia Road.

Becky Myers

3 weeks ago

We don't want commercial properties in the middle of our residential neighborhoods.

David Folkner

3 weeks ago

I did not invest in building a house expecting the surrounding property to be rezoned from residential.

Ali Awad

3 weeks ago

The proposed properties do not match the surrounding homes.

Sara Kimball

3 weeks ago

There is absolutely no need for commercial zoning right in the middle of this residential area. And any housing development should closely match the neighborhoods nearby.

tasha sapp

3 weeks ago

It is bad for surrounding neighborhoods

David Dyer

3 weeks ago

I do not want the area rezoned

Donna Hunley

3 weeks ago

We do NOT want and/or need Commercial property around all of these surrounding residential homes Plus we ask that comparable size homes be built on that 109 acres

Hi,

I am submitting this public comment in regards to Case: RZ-23-3. As noted in the posted agenda, the request is for “Consideration of a rezone of 109 acres from R2 Residential to PUD-M. The Flat Fork PUD would include a maximum of 220 single-family homes on the north side of 96th Street, between Georgia and Cyntheanne Road, and a C2 Commercial area at the northeast corner of 96th & Georgia.” [2276 \(fishers.in.us\)](https://fishers.in.us/2276)

The agenda also included a traffic assessment based which was dated 23 August 2023 [RZ-23-3-Traffic-Memo \(fishers.in.us\)](https://fishers.in.us/RZ-23-3-Traffic-Memo) This assessment took under consideration the approximate number of homes proposed in case RZ-23-3. However, it does not appear to have considered the impact of Silverthorne Homes development which is currently breaking ground on the south side of 96th street near Georgia Road (~250 homes).

On 21 September 2021, the McCordsville planning commission held a meeting to approve 249 lots for development immediately south of 96th and Georgia road (left figure below); meeting agenda found here: mccordsville.org/egov/apps/document/center.egov?view=item&id=2939. It appears one of the exits from this neighborhood is the intersection of 96th and Georgia (right figure below).

As noted in the 21 September 2021 McCordsville planning commission meeting minutes “Charlotte Sears, a resident that lives at 1000N & 500W, noted "extreme traffic" in on CR 1000 N. She asked about the plans for roundabouts along CR 1000 N (96th Street). Mr. Crum confirmed Fishers' plans for two roundabouts on 96th, stating that he is not aware of the timeline for that project.” Additionally, it was noted “Mr. Crum asked Mr. Downey if he had seen the right of way questions the City of Fishers had emailed the previous day. Mr. Downey confirmed that he had and that engineers were working on getting those questions answered. Mr. Crum asked if Mr. Downey was comfortable with the approval being contingent on any disagreements all Right of Way issues

with the City of Fishers being resolved. Mr. Downey agreed.” [1637258673_12497.pdf](#)
(mccordsville.org)

Q: What was the conclusion from the City of Fishers on this topic and specifically what “Right of Way” has been granted by Fishers?

Q: What traffic evaluations have been conducted given that we are considering to add ~220 homes in addition to the ~250 that are yet to be built?

I am not sure who is responsible for 96th street or future developments along the Hamilton/Hancock County line, but given how busy this street is I’m concerned that it will become even more hazardous if we don’t take the time to thoroughly assess the implications of adding ~500 new homes along this street.

Sincerely,

Steve Hunley

Subdivision or business name:	Belmont Place
Please select the meeting to which you would like to submit a public comment:	Board of Zoning Appeals - Fishers
Meeting Date:	Sep 06, 2023
Project Name/Resolution Number:	RZ-23-3
Comment:	The surrounding area of the subject property is fully residential. There is no need or want for any commercial property in this very small area. The current road infrastructure can only just support current residential traffic- Georgia Road is barely wide enough to be considered a two-lane road. Please consider the density of the proposed housing and how this additional traffic would impact an already narrow entrance/exit from multiple nearby communities.
Would you like to receive email communications and updates from the City of Fishers?:	Yes

Subject: Flat Fork PUD - Opposition to Commercial Rezoning
Date: Thursday, May 18, 2023 8:30:45 AM

EXTERNAL SENDER: Please exercise increased caution. Do not open attachments or click links from unknown senders or unexpected email messages.

Dear Ms. Vukusich:

I am writing to express my strong opposition to the proposed rezoning of the property located at Georgia Road and 96th Street from residential to commercial in connection with the Flat Fork Planned Unit Development.

I have lived in The Reserve at Steeplechase in Fishers for nearly seven years. As a resident, I have always appreciated the quiet, peaceful nature of our community, and as a citizen, I am thankful our city planners have carefully managed residential and commercial zoning in a way that makes Fishers an attractive place to both live and open a business.

The proposed commercial rezoning will have a negative impact on our quality of life by bringing increased traffic, noise, and pollution to our neighborhood. The increased traffic would make it more difficult for residents and school buses to get around, and it would also make it more dangerous for children to play and ride their bikes. The noise from the commercial development would be disruptive and would make it difficult to relax or sleep. The pollution from the commercial development would be harmful to our health and the environment.

In addition to the negative impacts on our quality of life, the proposed rezoning would also decrease the value of our homes. We and our neighbors worked hard, saved and invested in order to be able to build or buy our houses and we continue to work hard, save and invest in our houses and property to do our part to make this a nice community to call home. A commercial development would make our neighborhood less desirable, which would make it more difficult to sell houses in the area and build equity for future investments in our businesses and homes.

We already live within a short drive to grocery, retail, and convenience stores as well as restaurants of many kinds, ice cream shops, salons, medical and dental offices, and gas stations. Speaking for myself, and likely the vast majority of residents in the area near the proposed development, none of us need nor want commercial businesses brought into our neighborhoods. If we wanted that, we would have chosen to build or buy a home within walking distance of commercial districts.

I urge the Planning and Zoning Department to reject the proposed commercial rezoning of the property located at Georgia Road and 96th Street as it will have a negative impact on residential property value and the quality of life for all of us who live near the proposed development.

Very truly yours,

Michael D. Zaradich, Esq.
